March 28, 2023

TEAMS

Attendees: Katy Hileman, Aurora Hollabaugh, Billie Kile, Brooke Davis, Eric Beyer, Harriet Marritz, Neil Burkholder, Sadrac M. Esquivel, Steve Nevada, Taryn Maguire, Tiffani Kleiser, McKenzie Johnson

Warden Hileman

- Recap of larger CJAB meeting – had a conversation regarding the proposal of Julota. Committee was in favor of exploring this. Attempted to meet with Josh to see a demonstration. Unfortunately, his schedule was full. Did set a meeting for a demonstration for April 25, 2023, at 1300. Katy sent out invite for the demonstration. Informed the committee if they did not receive the invite to reach out to her and she will send it to them. This will give the committee a chance to see if this is something we can use or if it is not something that will work for us. Next meeting is set for May. This will give us enough time to see the demonstration for Julota and discuss if this is something that we will be able to utilize.
- CJAB Behavior Health Sub-Committee – Katy informs the committee that her two-year position as Chair is complete. She is asking the committee if there are any takers who would like to take on the position. There are no takers. Katy proposes that she can remain as Chair but will take on other members of the committee to assist her with the duties of Chair. Brooke and Aurora have volunteered to assist Katy. Katy tasks Monica to set a meeting with Brooke to go over what she will be doing to assist. Meeting looking to be set for the third week in April.

Brooke Davis

- Co-Responder – McKenzie Johnson is the Co-Responder for Adams County. Bruce informs the committee that McKenzie is currently the Co-Responder for Gettysburg Borough PD and Cumberland Twp. PD. They are currently working on a MOU for her to also work with Carroll Valley Police Department as well as PSP. PSP will also utilize her but without a MOU.

Aurora

- CIT- informs the committee of the next CIT training during first week of May. The fall class will be offered once a week over the course of several weeks to try that model. This is due to the staffing shortages and the difficulty with getting staff to attend a 40-hour week course. Katy asking about refresher courses for those that have already attended the program. Aurora informs her that she is working on this, and she will update those participants once dates/times are finalized.

Steve

- Mercy House – informs the committee that currently the provider services have stopped. They are currently looking to fulfill this position. There are several meetings that still need to take place to get this going. Not public knowledge yet, just wanted to update everyone.

Meeting Notes taken by Monica Goss, Administrative Assistant to the Warden

- Opioid Settlement Funds – informs the committee that wave one has been completed. Wave two will be coming out soon. Once everything is finalized, there will be recommendations on how the money is used.
