## 2017 ADAMS COUNTY BUDGET

### County Narrative

As 2017 unfolds, we will be moving into a new era of County operations. Our foot print in rented space will progressively diminish as we move into the County acquired Herff Jones building. This building will be renovated for County operations throughout 2017. As sections of the building are completed, County departments will begin moving into their designated quarters as they leave their rented space. The renovated facility will be known as the Adams County Human Services Building and will also provide a completely new service, Mental Health Services. The inclusion of Mental Health Services not only provides a new and needed service, but it also brings outside funding to support the building renovations. Additionally, the space that Mental Health Services will be occupying will be rented from the county by York/Adams Mental Health Joinder. This financial support helps to make the entire project a more affordable venture. By relocating operations to the Human Services Building (HSB), we have achieved numerous operational benefits as well as future cost savings and cost containment. This great opportunity for cost containment comes at a crucial time when it becomes more and more difficult to balance a budget without a tax increase. Putting this in perspective, our challenge is to meet the greater and increasing expenses with insufficient current tax revenues and a flat tax base.

For calendar year 2017, Adams County government will have the resources to address this scenario without a tax increase. How is this to be accomplished? Our reserve funds and 2016 carry over funds are adequate within fiscal protocols to cover the 2017 projected revenue short fall. We also plan to establish a line-of-credit to protect our reserves knowing that the funds will be needed if the PA state budget approval process is delayed. Obviously, a continual use of reserve funds to balance a budget cannot be sustained year after year; otherwise reserve funds would eventually be depleted and would adversely affect our fiscal position. Additionally, having reserves is seen as good financial management; they are also an excellent source of funds for unforeseen emergencies.

The solution to leveraging a balanced budget with reserves year after year is easily stated, reduce or cut spending, increase revenues, or a combination of both. Whatever the course, the implementation is challenging especially in the face of increasing unfunded mandates and unforeseeable emergencies. Reducing expenses in 2017 will focus upon rent reduction, over-time reduction, right-sizing operations, contracting services, or reducing liability. We must also look at all revenue sources to assure they are maximized.

Some people think that a shortfall in revenues can be solved by simply raising taxes. That solution, however, is not very popular. To help counter the need to raise property taxes, the Commissioners will continue to look for areas to reduce spending and maximize revenues, while advocating with our state legislators for elusive property tax reform and relief.

A more popular and longer-term solution to producing increased revenues is to increase the property tax base through economic development. Commercial and Industrial growth provide the greatest source of new tax revenues. Economic development in Adams County is and has been a difficult path with more stumbling blocks than stepping stones. Obviously, economic development is one of our greatest priorities. We will continue to keep economic development moving forward by bringing stakeholders together to forge both countywide and regional visions for Adams County. Recent economic assessment and research along with soon-to-be completed regional comprehensive planning will help shape our vision.

It is interesting to note that the first year of each term of the present board of Commissioners has led to landmark projects. The 911 Emergency Radio Project began in 2012 and the new HSB project began in 2016. It is a pleasure to report that the radio project has been a true success as noted by many residents, community leaders, and first responders. In a similar vein, the decision to move forward with the HSB project has brought forward numerous remarks commending the decision. Not only will this project release the County from spiraling rents, but will provide modernization of operations to better serve the county residents. At this juncture, the Human Services Building is on schedule, within budget, and experiencing only minimal change orders.

The next project that will be moving forward is a public/private venture to construct a shooting and training firing range. It will be constructed on County property at a strategic location beside the 911 Center and comes at no cost to tax payers. Funds for the project will be provided by the Adams County Law Enforcement Association. This facility will provide training and practice opportunities that are not presently available to Adams County law enforcement. The Board will also continue to support efforts like the Fruit Belt Study and the facilitation of broadband as a necessary component of economic development.

All the projects that have been mentioned not only represent improved services, but they represent employment provided through local contractors and new employees locating to Adams County. These projects plus other capital improvement plan for 2017 have a threefold purpose; to improve the efficiency of county operations, to elevate the quality of life, and to encourage greater investment in Adams County.

## 2017 ADAMS COUNTY BUDGET

County Narrative (continued)

Our predication is that Adams County government, in 2017, promises to be both exciting and challenging. With the success of the 911 Radio Project behind us, and the completion of the Adams County Human Services Building and the Law Enforcement Training Range ahead of us, we hope to continue our record of operational effectiveness and fiscal responsibility; combined with a vision toward the future. We invite any residents to contact the Board or any Commissioner with your ideas, thoughts or concerns. It is an honor for us to serve the residents of beautiful Adams County and thank you for that privilege!

# ADAMS COUNTY, PENNSYLVANIA

## Income

The median household income in Adams County has typically been higher than the median income for the state and nation. This high standing can be attributed to households with workers who commute to higher wage areas outside the County, including Maryland, Harrisburg, and D.C. Also many retirees with reasonably high pension incomes have chosen to reside in Adams County.

Median Household Income

The County, each municipality (with the exception of Huntington Township) and school district in Adams County levy real estate taxes. The millage rate is multiplied by the assessed value of the property to determine the amount of the tax.

Most municipalities and school districts also levy per capita taxes and several municipalities collect a fire tax. The local municipality or Adams County Tax Services Office (717-337-9837) will be able to provide current tax rates.

## Transportation

- Adams County’s transportation network has not changed much over the years, except for the addition of a lane to each side of Route 15.
- Routes 15 and 30 are part of the National Highway System. Route 15 is a four-lane highway which connects Washington D.C. and Leesburg, VA with the Turnpike, Harrisburg, and states north of Pennsylvania. Route 30, also known as the Lincoln Highway, was the first road to span the United States, Coast to Coast. Today, Route 30 in Adams County and six other Pennsylvania Counties is part of the region known as the “Lincoln Highway Heritage Corridor”.
- There are two commercial rail line lines in the County: the Western Maryland Railroad and the Gettysburg and Northern Railroad.
- Public transportation is limited to the Freedom Transit system, which serves Gettysburg Borough and connects to several places of interest outside of the Borough, like Wal-Mart, the Outlets, and medical facilities. A RabbitTransit express bus from Gettysburg to Harrisburg travels Route 15 throughout the week.

The fruit industry has been an important part of Adams County’s history since the mid- nineteenth century. Adams County is the top apple producing County in the Commonwealth and 6th in the nation (according to the 2012 Census of Agriculture)

# ADAMS COUNTY, PENNSYLVANIA

## Land Holdings

There are over 20,000 acres of orchards and vineyards in the South Mountain region, which includes northern Adams County. The Adams County Fruitbelt contains a unique combination of soils, slopes, and micro-climate that has been recognized as prime land for orchards. The Fruitbelt has been deemed eligible for listing on the National Register of Historic Places and is considered “America’s Orchard”.

## 2017 ADAMS COUNTY BUDGET **BUILDING/MAINTENANCE**

### ***Mission Statement***

To maintain all county buildings, including the Historical Courthouse & New Courthouse, County Magistrate Offices, the Children and Youth and the Domestic Relation Offices located in the former American Legion Building, the County Complex Facilities, Prison and the former St. Francis Xavier Property and the new Human Services Building (HSB). The Complex area there are 40 plus acres that we take care of a farmer maintains the rest. The HSB there is approximately 20 acres to be maintained by the County Maintenance Dept. My Dept. also maintains the equipment, grounds, and the water treatment and sewer to be safe and operational. To comply with the NFPA 101 Life Safety Codes; Department of Health and Safety inspection division, DEP, EPA, and ADA. Maintain the Building and Maintenance Office, telephone and voice mail and long distance system, courthouse mail, copies and printing operations, and many others too numerous to mention.

### ***Budget Narrative***

In the year 2016, the Building & Maintenance Department accomplished many major work projects, made more office space for VA's office, shredded over 650 boxes of documents from County offices, moved files, records and cabinets from County buildings and HSB building to the High Street property storage areas. Purchased and assembled shelving for the boxes. Replaced energy saving bulbs thought-out the County. Finished replacing new faucets and shutoffs in the restrooms of the new courthouse and two new vanity tops for the sinks. Remodeled Re Entry offices in work release at Prison. Wired up Historic Courtroom for speaker system.

HSB building removed a lot of equipment for storage till building is completed, got ready for sale HSB and created office space temporally for Probation. Prison got a lot of HVAC equipment working properly this year also. Purchased new Ford F550 for 17 tower sites and misc. equipment to do preventative maintenance. Old Courthouse HVAC system added economizer to get free air Cond. when above 55 degrees and other misc. equipment sewer pumps, sub pumps etc. and monitor it remotely. LED upgrades at county buildings for energy savings got \$19,000 rebate for the upgrades the complete cost of the project. 911 control center replaced all of the carpet 2 ft. squares. We added emergency lights in all restrooms old and new Courthouse.

The chiller in parking lot patched and repaired the inside many panels were rotten till we can get a new one. The old 911 center lower level New Courthouse added a Minnie split system because with all of the new radio equipment added system couldn't always keep up.

## 2017 ADAMS COUNTY BUDGET

Bldg. & Maintenance (continued)

The HSB we purchased a cardboard bailer also this year and all of county buildings cardboard is taken there to be bailed in 800 lb. bales and sold for revenue instead of paying to have it hauled away.

The County also has a small grave yard to maintain and a walking trail approximately 1 mile long. We also completed many other projects too numerous to mention. The Building & Maintenance Department will continue to perform preventative maintenance work to all of the buildings, grounds, electrical, plumbing, and HVAC equipment. We will also continue to maintain the buildings, grounds and County water and sewer operations at the County Complex in 2016.

2017 ADAMS COUNTY BUDGET  
**COUNTY COMPLEX**

***Mission Statement***

To maintain the one hundred and eighty plus acres of the county complex buildings, grounds, equipment, water tower, well pumps, sewage pumps, generators, bar screening station, sewage lines, sewage flow meter, and well water treatment to be safe and operational. Snow removal for complex and other areas also spread cinders/salt for safety reasons. Maintain all the county equipment to help keep a smooth operation (tractors, skid loaders, lawn equipment and some County vehicles.

The licensed water technician provides safe drinking water. It is tested by skilled technicians at regular intervals to ensure the cleanliness. The operator is alert to the system, 24/7, to maintain this safety factor.

***Budget Narrative***

In the year 2016, our County Maintenance techs will continue training courses to gain the knowledge and expertise to operate and comply with DEP standards so our water treatment facility will stay safe and operational. We now have 3 licensed operators.

Our water quality test results for Microbiological Contaminants, Radioactive Contaminants, Inorganic Contaminants, and Volatile Organic Contaminants which consisted of 48 different water samples came back with no violations.

Well water testing is a daily operation for water samples. Testing for Bacteria and Chlorine residuals, VOCs, Nitrate, IOCs, and TTHM/HAA5. In 2015 the maintenance department has done an excellent job in keeping the grounds, parking and roadway maintained. This past winter was quite challenging to keep up with snow removal and cinder spreading and got through it with very little break downs. Built our own salt/cinder shed at the complex. Serviced our own lawn mower equipment this year including some of the County vehicles savings of around \$10,000.00. Upgraded our records at the well house. With the help of the I.T. Department we installed a VPN and now able to see the well house computer remotely and can make adjustments or corrections 80% of the time so we don't get called in for an alarm thus saving on overtime expenses.

## 2017 ADAMS COUNTY BUDGET CLERK OF COURTS

### *Mission Statement*

The mission of the Adams County Clerk of Courts Department is to constantly maintain, properly record and preserve accurate court records, while providing professional and respectful services to all. We will always remember to excel by constantly educating and improving ourselves so that we may serve others with courteous and professional results. Aware that how we act and react in our daily dealings with others is our challenge, we will strive to always make each contact with the public and with each other a pleasant experience. Our goal is to deliver more than expected!

### *Vision*

The Adams County Clerk of Courts Department is committed to being a highly effective and empowered team of professionals dedicated to providing superior individualized services to each contact. Through constant training, education, and the efficient use of technology, we will meet the challenges of the always fluctuating workload.

### *Budget Narrative*

The Clerk of Courts Office continues to focus on ways to become more efficient. In September 2016, we went live with PACFile (electronic filing of records) and an electronic records management system (ERMS) offered by the Administrative Office of Pennsylvania Courts. We were excited to become one of the first few counties to go live with the new system. This system permits all Court and Court related offices as well as attorneys and other ancillary parties to file electronically with the Clerk of Courts as well as to view cases and receive notifications electronically. The Clerk of Courts is prepared to fully implement e-filing and electronic notifications upon approval of the Courts. Once the Courts and court related departments have developed their business process, the Clerk of Courts office will assist other departments and attorneys in an effort to receive their notifications of filings electronically thereby reducing costs within the office. We are constantly looking at processes to become more efficient, reduce expenses while providing more access and ease for our constituents

I anticipate our Orphans' Court system moving to the state system in early 2018 with possible migration and implementation very late 2017. I am fully supportive of this project and have been informed by AOPC team members that Adams County likely will be a pilot on the system, assuming Court approval. This will greatly reduce our professional service expenses and contracted services in 2018. Other exceptions to the budget line items include:

### **MINOR EQUIPMENT**

Several computer monitors have stopped working this year. I anticipate others will follow since they are the same age. I have requested 5 additional monitors to replace the ones that have not been replaced and 2 additional monitors to permit dual monitors in the courtroom along with the video adapters for operation.

I have also requested 9 battery backup units to replace the remaining battery backups in the office. Several had to be replaced this past year due to age and functionality.

### **PROFESSIONAL SERVICES**

Our state Orphans' Court system will permit electronic documents to be stored within the system. To utilize the new functionality in the future, which will also reduce costs of supplies and postage while improving efficiency, it is imperative we migrate our existing images and all data and case information for Orphans' Court into the new system. I have requested funds to permit the transfer of those documents from Verdict, Marriage Marshal and DocStar. This will be a one-time request and not an ongoing fee. Since I anticipate Adams County being a pilot county, it is likely the migration from our current system to the Orphans' Court Case Management System (OCCMS) will be initiated in 2017.

### **CONTRACTED SERVICES**

We have eliminated the maintenance agreement for our timeclock in 2016 reducing our contracted services budget approximately \$500.00. With the implementation of our new process, the time clocks will be used less frequently. Costs of replacement was nearly the same as annual maintenance agreement.

2017 ADAMS COUNTY BUDGET

Clerk of Courts (continued)

**MILEAGE**

Per the request of the Courts, staff from the Clerk of Courts Office will now be required to conduct interviews of defendants, attend hearings, bench warrants, and Gagnon matters at off-site locations such as the prison and Human Services Building. I am working with the Courts for permission to conduct our business by using video conferencing technology. Until approval is granted, staff must attend these off-site matters and will need to have mileage compensation.

**SUPPLIES**

With anticipation of receiving approval sometime in 2017 from the Courts to fully implement PACFile and eliminate the duplication of distributing documents, the paper budget for our office will increase. Other departments and attorneys would no longer file a physical document with our office. Since the Courts require a physical case file, we would still be required to print hard copies of all electronic filings. Although the Clerk of Courts paper budget would increase, it should decrease in all other court and court related departments when this is implemented. Even with this anticipated increase, I still have decreased our supplies budget from 2016.

## 2017 ADAMS COUNTY BUDGET COMMISSIONERS

### *Mission Statement*

The Board of Commissioners consists of three members and constitutes the chief governing body of the County. The Commissioners, together with their executive staff, manages the county organization with the mission of providing quality government service in an efficient cost effective manner. The Commissioners are elected every four years and are responsible for setting policy for the fiscal management, and the administration of County affairs. The Commissioners serve on the Salary, Prison, Retirement, York-Adams Joinder for MHIDD and Election Boards as well as sitting as the Board of Assessment Appeals. They appoint members to participate on various boards and commissions affiliated with the county.

### *Budget Narrative*

The responsibility of conducting business for the County has continued to grow. An important fact is that the County maintains its best ever credit rating from Moody's at Aa3+ and fund balance to meet future needs. However, challenges from decreased funding from the State and Federal government and a lack of any notable increases in tax revenue from development within the county, continue to plague the budget process. The general County budget is stretched to meet the obligations imposed and necessary to meet the needs of Adams County residents. We continue to improve our operational effectiveness with modernization programs, while we continue to pay down our debt within our budgeting process. The Commissioner's office will continue to promote the collaborative approach with all departments and Elected Officials in order to provide services to the citizens of Adams County.

## 2017 ADAMS COUNTY BUDGET CONSERVATION DISTRICT

### *Mission Statement*

To promote voluntary conservation and good stewardship of Adams County's natural resources.

### *Budget Narrative*

According to Act 217, the Conservation District Law, conservation districts are designated as a primary local government unit responsible for the conservation of natural resources and are responsible for implementing programs, projects and activities to quantify, prevent, and control nonpoint sources of pollution. The District is overseen by a seven person governing Board of Directors that is appointed by the County Commissioners. The Board is responsible for establishing the District's priorities through the approval of annual Goals and Objectives that the staff is tasked to accomplish. Some of the highlights of our goals and objectives include:

- Promote the implementation of agricultural conservation practices. Promote and enhance our agricultural compliance efforts by providing technical assistance to Adams County's farmers to help them minimize soil erosion and nutrient runoff while helping to sustain Adams County's economy, tax base, and natural resources.
- Promote agricultural preservation and sustainable land use management practices by collaborating with other County offices, organizations and agencies including the Office of Planning and Development, PSU Cooperative Extension, and Adams County's 34 municipalities.
- Minimize accelerated erosion and the effective management of storm water runoff to improve local water quality through the administration of the Erosion & Sediment Control Program, (E&S), Act 167 and NPDES storm water programs through both the urban and agricultural programs.
- Assist the 13 newly designated Municipal Separate Storm Sewer System (MS4) municipalities with meeting their Minimum Control Measures.
- Continue promoting various watershed activities that will help to conserve and protect Adams County's water resources through the continuation of our groundwater and rain gauge precipitation monitoring work. Actively participate and support the Adams County Water Resources Advisory Committee.

## 2017 ADAMS COUNTY BUDGET

Conservation District (continued)

Implement the DCED Watershed Restoration and Protection Program in order to assess stream water quality in up to 12 municipalities in Adams County.

- Provide environmental programs and competitions to teach conservation practices and initiatives to the youth and adults of Adams County through Trout in the Classroom, Middle and High School Envirothons and other workshops.
- Continue to administer the WNV and Zika programs to reduce the risk of West Nile and Zika Virus exposure and transmission to humans through mosquito surveillance and control efforts.
- Administer the Dirt & Gravel/Low Volume Roads Program to assist municipalities with improving water quality through the installation of Best Management Practices while balancing program needs with the necessary staffing.
- Manage the Adams County Conservation District and the Adams County Agricultural and Natural Resources Center in a cost-effective, responsible, and efficient manner.
- **The District's 2017 proposed budget increases revenues to the County by \$19,752 or 5.3% over 2016 while reducing our operational expenses to the County by \$7,575 or 14.2% less than our 2016 approved budget.**

## 2017 ADAMS COUNTY BUDGET CONTROLLER

### ***Mission Statement***

The County Controller is an elected official directly responsible and accountable to county citizens and is essentially the county taxpayer's Fiscal Watchdog. The Controller's Office in Adams County consistently performs appropriate duties and responsibilities as delineated under the County Code of the Commonwealth of Pennsylvania and based upon best practices as defined by PSACC.

### ***Budget Narrative***

The Controller's Office primary responsibilities are to protect and safeguard County (taxpayer) funds and assets; make sure appropriate financial recording and reporting systems are in place and functioning properly; and add value to the overall function and operation of County government striving for effective and efficient performance.

The key departmental positions assisting the Controller are: 1<sup>st</sup> and 2<sup>nd</sup> Deputies, Auditor, General Ledger Accountant and Accounts Payable Accountant. Priorities include training; expanding the auditing process; roll-out of the Accounts Receivable module in One Solution; fully utilizing the general ledger module and other features of One Solution including Cognos report writing.

We continue to stress process improvement as a key departmental goal for 2017. We will implement the Accounts Receivable module in One Solution to streamline the AR process. We will continue our work on the general ledger account restructure in an effort to make full use of One Solution's reporting capabilities and project, grant and Capital budget tracking. We also continue to work closely with county departments as our auditing process expands-addressing sub-recipient monitoring and additional auditing standards. We want to improve and perfect our performance through increased training and professional services. To successfully achieve this goal we will need adequate resources.

## 2017 ADAMS COUNTY BUDGET COOPERATIVE EXTENSION

### *Mission Statement*

Penn State Extension serves as your portal into the assets and information of a major research institution and Pennsylvania's land grant university. Penn State Extension provides practical nondegree education you can trust, to help people, businesses, and communities solve problems, develop skills, and build a better future.

You can find the local Penn State Extension Office in Adams County at the Adams County Ag and Natural Resources Center, 670 Old Harrisburg Road, Gettysburg, PA Telephone: 717-334-6271 and we are part of the Penn State College of Agricultural Sciences. We have offices in all 67 Pennsylvania Counties, we live where you live – we know what life here is like, and we care about the community just as you do.

When you use Penn State Extension, you can be confident that university and staff experts have reviewed and developed programs to ensure you get the best, research-based information for your needs. Through your extension, you have access to programs developed by a network of land-grant universities throughout the country.

### **Explore Your Choices**

Penn State Extension provides nondegree educational programs in these key areas:

- **Animal Sciences** (General Animal Care, Dairy, Equine, Beef, Sheep, Poultry)
- **Plants and Pests** (Crops and Soils, Tree Fruit and Grape Production, Vegetable and Small fruit, Mushroom Production) Green Industry, Gardening, Pollinators, Pest Management, Certified Pesticide Applicator Training)
- **Natural Resources and Energy** (Water Quality, Forest Resources, Natural Gas)
- **Food and Health** (Food Safety, Food Processing and Quality, Wine Quality, Nutrition, Diet and Health)
- **Community and Business Development** (Ag Business Management, Entrepreneurship, Farm Energy Use and Efficiency, Farm Safety, Economic and Community Development)
- **Youth and Family** (4-H, Family Strengths and Youth Development)

Penn State Extension is home to the research based 4-H youth development program and the Penn State Extension Master Gardeners. To learn more about Penn State Cooperative Extension visit [www.extension.psu.edu](http://www.extension.psu.edu).

## ***Budget Narrative***

### Program Highlights

The Penn State Extension Ag Innovations initiative has demonstrated significant impacts for Adams County in the areas of agricultural sustainability and environmental stewardship, economic and workforce development, and market innovation and expansion. The Penn State Extension Young Grower Alliance is making tremendous strides in building capacity within a rising generation of specialty crop growers committed to securing a strong future for Adams County agriculture. Specific impacts include:

- Increased precision management in orchards with 80% of new plantings on dwarfing rootstocks that increase net cumulative returns by \$20,000 per acres.
- Improved crop load management using labor efficient technologies that increase net returns by \$200 to \$1200 per acre.
- Value-added diversifications such as hard cider that demonstrate potential increases in revenue of 60% compared to process apple sales.
- 74% of next generation growers building a stronger base for business goals and objectives.

The Penn State Extension 4-H Youth Development program reached 1,232 youth in the county (an 12.1% increase from 2015-16) and was supported by 118 screened 4-H adult volunteers.

### Goals for 2017

Continue to strengthen programming for young next generation, new, and minority specialty crop growers through “models-of-the-future” fruit and vegetable plots, learning circle networks and on-line learning opportunities

Support the Tree Fruit Extension team goal of Increasing Orchard Sustainability with Advanced Integrated Pest And Cultural Management” through an industry-funded study on field practices to reduce post-harvest disorders in Honeycrisp and new high value cultivars.

The emerging hard cider industry has the potential to increase revenue by 60% compared to process apple sales for an average orchard. To capitalize on this opportunity, we will be increasing the depth and breadth of our robust hard cider program to keep Adams county growers up to date with much needed educational resources to profit from this

## 2017 ADAMS COUNTY BUDGET

Cooperative Extension (continued)

emerging industry. To date, participants attending workshops indicated knowledge gained will help their business increase profitability up to 25% in the coming year allowing 13% of participants to create at least one new job.

The Penn State Extension 4-H Youth Development program will increase youth participation by 3% to 1269 youth in the county.

In 2017, Penn State Extension in Adams County will continue to develop the Ag Innovations program for specialty crops and next generation growers. This program will focus on implementing innovative technologies for specialty crop growers, the leadership development for young specialty crop growers- Young Growers Alliance (YGA), and hard cider industry economic development.

In addition, implementation of a voice over internet protocol phone system will be implemented to significantly reduce telephone costs for the department.

Cooperative Extension (continued)

### **Funding**

Penn State Extension is funded by the U.S. Department of Agriculture and state and county governments. Through this county-based partnership, Penn State Extension educators, faculty, and local volunteers work together to share unbiased, research-based information with local residents.

The Pennsylvania State University is committed to the policy that all persons shall have equal access to programs, facilities, admission, and employment without regard to personal characteristic not related to ability performance, or qualifications as determined by University policy or by state or federal authorities. It is the policy of the University to maintain an academic and work environment free of discrimination, including harassment. The Pennsylvania State University prohibits discrimination and harassment against any person because of age, ancestry, color, disability or handicap, genetic information, national origin, race, religious creed, sex, sexual orientation, gender identity, or veteran status and retaliation due the reporting of discrimination or harassment. Discrimination, harassment or retaliation against faculty, staff or students will not be tolerated at the Pennsylvania State University. Direct all inquiries regarding nondiscrimination policy to the Affirmative Action Director, The Pennsylvania State University, 328 Boucke Building, University Park, PA 16802-5901; Tel 814-863-0471.

2017 ADAMS COUNTY BUDGET  
**CORONER**

***Mission Statement***

The Coroner's Office is responsible for investigating any sudden, unexplained deaths not due to prior known medical causes, to ascertain the cause and manner of death and try to determine if another person was responsible for the death. The Coroner's Office shall perform his/her duties without fear, prejudice or partiality towards any person or institution. The Coroner's Office shall proceed in the public interest to carry out diligently and as rapidly as possible the duties and responsibilities as required by law to serve the residents of Adams County.

***Budget Narrative***

The Coroner's Office will show a change in the training line item as I am planning on certifying a new Deputy that I am in the process of training. I appreciate the acknowledgement of the Commissioners for the needed increase in Professional Services as more of our cases are warranting autopsies due to the opioid and heroin crisis. As we have no control over our case load we will continue to strive to avoid autopsies when possible while continuing to serve the citizens of the county and work within our budgeted amount as much as possible.

2017 ADAMS COUNTY BUDGET

## 2017 ADAMS COUNTY BUDGET COURT ADMINISTRATION

### ***Mission Statement***

The mission of the Adams County Court of Common Pleas:

As a member of an institution vital to civilization, our mission is to deliver dignified, respectful, and efficient service to the community and to our peers, promoting the rule of law and preserving justice for the benefit of all.

The vision of the Adams County Court of Common Pleas:

We are committed to promoting the rule of law and preserving justice for all. We will heighten the value of the court institution for community members and court employees alike. We will serve the people through enlightened and proactive leadership, enhancing the quality of life within court offices, and delivering dignified, respectful, and efficient service to all members of the community. We will strive to identify and develop future generations of highly skilled and creative public servants who can preserve the court's best traditions, while ably meeting the challenges arising from rapid social change.

The Adams County court of Common Pleas Community:

Court of Common Pleas

Court Administration

Department of Probation Services

Domestic Relations Section

Department of Operational Services

Magisterial District Court 51-3-02

Magisterial District Court 51-3-03

Magisterial District Court 51-3-04

### ***Budget Narrative***

2016 was a transition year for the Courts. Two new Common Pleas Judges have now been established in their respective roles, and the County has embarked on the renovations of the new Human Services Building, which will result in the relocation in 2017 of vital Court services, including District Court 51-3-01 (upon approval of the Supreme Court), District Court 51-3-04, the Department of Probation Services, the Domestic Relations Section, and the Department of Operational Services. As these events are occurring, an influx of technological changes is also happening. The County has upgraded its document imaging program and is laying the foundation to move to a Voice over Internet Protocol (VoIP) digital phone system. Virtual Desktops have

## 2017 ADAMS COUNTY BUDGET

Court Administration (continued)

continued to expand. The Administrative Office of Pennsylvania Courts is working with the Court on projects involving document imaging and electronic filing. The Department of Human Services has also worked with the Domestic Relations Section on document imaging. The Court and the County is working with the Adams County Bar Association to expand Wi-Fi capacity for Bar members in the courthouse. Sound systems upgrades and digital recorders are entering courtrooms. The foundation for video conferencing expansion is also occurring. All of these events are occurring to ensure that employees can perform duties to the fullest capacity and in return, provide better work product for the public, while enhancing safety, security and meeting the need for technological improvements.

In respect to the overall 2017 Budget with expenses directly controlled by the Court, the Court's overall request is nearly identical to 2016; however, with a looming death penalty case currently on the calendar for 2017, and knowing the expense of such an event from out last experience in 2012, the Court is recommending that the County set aside \$100,000.00 in Capital in preparation for invoices related to attorney fees, expert fees, and juror expenses.

Not including the death penalty matter described above, our requested expenses for those costs not related to salary and benefits amount to an increase of approximately \$32,000. However, \$50,000 of our total increased expense is for the provision of labor counsel fees, an expense that until 2016 had not been previously incorporated into the Court's budget request. These fees pay labor counsel related to Union matters, for which the Court has two groups of organized staff; Profession and Support Staff (both represented by Teamsters) and for which the Profession unit will begin negotiations for wages and benefits beginning January 1, 2017. Overall, the Court has done its best to balance out resources across expense lines to present a budget very similar to the 2016 Adopted Budget.

We also are mindful of revenues, and when there are opportunities to obtain revenue, we pursue it. For example, the Administrative Office of Pennsylvania Courts, for the first time in 2016, provided grant funds to recover some expenses related to Interpreter Fees. The Court immediately submitted a request and received additional revenue for the County. Another interesting example is related to the expense discussed above; labor counsel fees. We learned in 2016 that the Court can recover a portion of the expense for these fees due to the fact that some of the bargaining unit members work for the Domestic Relations Section, and because of that, a portion of expenses involving those individual is reimbursable through the Pennsylvania Department of Human Services.

## 2017 ADAMS COUNTY BUDGET **DISTRICT ATTORNEY**

### ***Mission Statement***

The District Attorney's Office is responsible for the prosecution of every misdemeanor and felony arrest and appeal from summary conviction in Adams County. The District Attorney's Office also handles all juvenile prosecutions which occur in Adams County. The District Attorney's Office also counsels all law enforcement agencies in Adams County on legal and investigative issues dealing with the investigations of all crimes in Adams County. The Office is available to counsel law enforcement agencies on a 24 hour a day, 365 days a year basis. The District Attorney's Office, through the District Attorney, supervises and controls the Adams County Drug Task Force.

The District Attorney's Office also coordinates the Adams County Child Abuse Network, responsible for the investigation and prosecution of all child abuse cases in Adams County. The District Attorney's Office also coordinates the investigation and prosecution of all domestic violence cases in Adams County and utilizes an assistant district attorney and county detective to help investigate and to prosecute all domestic relations cases in Adams County. The District Attorney's Office, through a county detective, coordinates the Adams County Crisis Intervention Team model, which establishes intervention methods in dealing with people in mental health crisis, to provide a safe resolution to the crisis situation. The District Attorney's Office is a member of the Internet Crimes Against Children Task Force (ICAC).

### ***Budget Narrative***

Given the continuing budget issues which Adams County faces, I have attempted to fashion a budget for 2017 which provides the County's needs to ensure continued public safety while respecting budget shortfall. The District Attorney's Office will attempt to use discretionary accounts to pay for as much training as possible, however a large share of our discretionary training accounts have been exhausted. Furthermore, the District Attorney's Office will use discretionary accounts to pay for membership fees for the AOPC and MAGLOCLLEN.

Adams County continues to receive reimbursement from the Commonwealth of Pennsylvania to cover sixty-five percent of the District Attorney's salary. This revenue source will continue during 2017.

The Crisis Intervention Team (CIT) budget is now incorporated into the District Attorney budget. This expenditure was agreed upon at the time of application for the grant funding and is now an integral part of the District Attorney's Office as well as a significant

## 2017 ADAMS COUNTY BUDGET

District Attorney (continued)

training mechanism for other county agencies. The incorporation of this budget will cause a substantial increase regarding supplies and expenses going forward.

On a good note, the County will receive an increase as a result of the STOP grant in the amount of \$6,250 for 2017. This is as a result of a decrease to the Survivor's program for that funding but will assist the County with responsibilities and payment for salaries to an Assistant District Attorney, Miranda Blazek, County Detective, Wade Lauer, and Administrative Assistant, Wendy Forsythe. Also, ADA Blazek has been appointed to a state committee through the STOP program as a result of her continued excellent performance.

The Adams County District Attorney's Office is responsible for paying for the blood work necessary for all driving under the influence of controlled substance cases in Adams County. When the police suspect an individual is driving under the influence of a controlled substance, blood is drawn and sent to National Medical Services Lab (NMS) for testing and analysis. The District Attorney's Office is billed for this service. As part of the defendant's sentence, the defendant is ordered to pay the costs of the blood draw and analysis to the County of Adams, c/o the District Attorney's Office. Furthermore, for trial purposes, the District Attorney's Office must utilize an expert witness from NMS for purposes of presenting this expert testimony. The costs of this expert witness are also added to the defendant's costs at sentence and the defendant ultimately reimburses the County for these costs. Under Professional Services, the District Attorney's Office is requesting \$119,000 concerning these costs from NMS Labs. The restitution paid within the next year to Adams County by the defendant after sentence is included in the revenue projections and is projected at \$65,000.00. The professional services budget also includes \$20,643.00 for various forensic services. These costs may also be recouped through the payment of costs of prosecution next year to Adams County by the defendant after sentence.

There is a pending death penalty case in Adams County Court for 2017 which will potentially require expert witnesses and other professional services. From 2010 through 2016 the District Attorney's Office utilized approximately \$108,000.00 from a federal forfeiture fund to pay for professional services, forensic services training, equipment, supplies, and other expert witnesses at trial, thereby excluding those costs from the County general fund. The federal forfeiture fund currently has a balance of approximately \$12.00 and there are no new anticipated federal forfeitures to refresh this fund. Therefore, the District Attorney's Office requests a realistic increase of \$22,703.00 in its Professional Services budget for 2017. Much of that figure will be recaptured through costs of prosecution from defendants required to make reimbursement.

There has been a significant rise in the number of criminal and summary cases within the past year. There were 1,357 misdemeanor and felony cases in Adams County in 2015 and the projected estimate for 2016 is 1,560. Also summary appeals are expected to rise from 92 in 2015 to a projected 125 in 2016. Also, the number of crimes against children cases through the Internet Crimes Against Children (ICAC) unit has significantly increased from 29 cases investigated in 2015 to 35 so far in 2016. Many of these cases require significant man hours and investigative resources dealing with computers and forensic issues. These are the type of cases that have garnered so much publicity in the local press. There is also an expected increase in exhaustion of resources for cases taken on appeal as a result of the United States Supreme Court's decision in the *Birchfield* case. This landmark case has tremendously affected the prosecution of driving under the influence cases where blood was drawn as a result of the investigation. Currently, there are close to one hundred cases that may be affected as a result of this decision and the District Attorney's Office may need to appeal all of those cases, depending on preliminary rulings from the State Superior Court. There are costs associated with each of these appeals. As the Board is aware, the pending Oaklawn cemetery investigation and pending prosecution will also require significant costs and resources to bring this case to fruition. Finally, the District Attorney's Office is not in a position to know now what effect Electronic Records Management System (ERMS) will have on the office. However, it is a court-mandated document program that will be required.

2017 ADAMS COUNTY BUDGET  
**ELECTIONS/VOTER REGISTRATION**

***Mission Statement***

Our office is responsible for the County's electoral process, as well as Voter Registration and Campaign Finance filings for all candidates in accordance with the Pennsylvania Election Code, the National Voter Registration Act, the Pennsylvania Voter Registration Act and the help America Voter Act.

***Budget Narrative***

This year will be a Municipal Election year. There will be County, Judicial, local municipal, as well as school board offices up for election this year. Our office will be processing all of the County and local office petitions for all candidates running for office this year. All of the County's Tax Collectors and Mayors will be up for election in 2017 along with others.

We will continue to maintain our mandated list maintenance programs according to the PVRA and NVRA. We will process our annual ERIC (formerly known as NCOA) mailing as well as the five-year-not-voting notices. We will continue to provide voter list @ 0.25 per page and CDs @ \$20.00 each.

We will extending our contract with Election Systems and Software for the maintenance of our M100 precinct scanners and AutoMARK units which is also reflected in the budget. In addition, we will also incur costs for the coding and programming of the ballots and scanners.

It is our responsibility to test each voting machine before each election. We are also responsible for the delivery of all voting equipment to each polling place which we will be contracting with Ryder Trucks.

2017 ADAMS COUNTY BUDGET  
**DEPARTMENT OF EMERGENCY SERVICES**

***Mission Statement***

The Adams County Department of Emergency Services is responsible for maintaining the Adams County Emergency Services Center – Offices and Training Center and operations therein.

Built in 2003-2004, the facility houses the Emergency Management Agency; the County 9-1-1 Center; training classrooms, conference rooms and offices for County emergency responders, and the supplies and equipment utilized by the American Red Cross when disasters strike the County. It is the hub of the County’s emergency communications system and includes facilities for emergency amateur radio operations, and the County emergency operations center or “EOC”.

Emergency Services staff are responsible for the 9-1-1 emergency communications center, emergency management, hazardous materials response and all of the emergency planning functions, preparedness, prevention, response and recovery for natural and man-made emergencies, disasters and special events.

In most years, the County’s EOC is activated for major weather events or major emergency incidents but 2016 was a quiet year with one exception, a record blizzard which severely affected the County January 22-24, 2016. This storm brought transportation and commerce to a standstill and stranded citizens in their homes for multiple days. While the Emergency Services Department maintained 9-1-1 staffing for the duration of the storm, other personnel were unable to get to the Emergency Operations Center but staff managed to conduct emergency operations from home utilizing home computers and telephones; maintaining communications with municipalities, the media and State Emergency Management Agency officials.

Additionally, the Department assisted municipalities and various agencies within the County in collecting and filing storm related expenses for a Federal Declaration of Disaster Assistance which brought storm related funding back into the County to assist with storm recovery. This is one of the functions performed by the Department in times of extreme emergencies when Federal funding is made available to help the Commonwealth and the County recover under extreme disaster circumstances.

***Budget Narrative***

The 2017, objectives for the Emergency Services Department and Emergency Management function includes improvements and enhancements to the training facility, continued training for the County's Emergency Operations Center staff, County municipal emergency management coordinators and local elected officials.

Further opportunities to educate the public and encourage disaster planning remain an ongoing priority for the Emergency Management staff. Each year, personnel visit with local organizations, schools and senior centers to talk about disaster planning and preparedness and the importance of remaining alert to weather conditions, man-made disasters and citizens' role in safe practices and remaining alert for potential hazards.

The Emergency Services Department continues to work closely with the South Central Task Force to build and maintain vital regional resources critical in times of emergencies. The Task Force helps to provide training to first responders and emergency management personnel.

Department personnel will also continue to respond when needed around the County during weather emergencies, potential hazardous materials incidents and other emergencies that jeopardize public safety.

The Department is also responsible for maintaining the Emergency Services Training Facility and Office Center in Straban Township. Available funding will be used in 2017 to upgrade technology in the center, including expanding Wi-Fi to the second floor areas, and upgrades to building security.

The Department is also hoping to trade in its current Ford Explorer for a four-wheel drive vehicle so that staff is better able to travel in all-weather situations to wherever called in any emergency.

***TMI Grant Mission Statement***

The Adams County Radiological Preparedness Program (Radiation Emergency Response Fund Grant) has been established by the Commonwealth of Pennsylvania/Pennsylvania Emergency Management Agency to assist in the event of an emergency at the Three Mile Island nuclear power generating plant, and to train and equip members of the Adams County Department of Emergency Services to be able to respond to any incidents within Adams County that involve radiological materials.

It is worth noting that the Act 147 funds enable Adams County to purchase equipment for possible radiation emergencies and other disasters. These funds support not only our County Emergency Management functions but also support the American Red Cross efforts and our Auxiliary Communications Services (Amateur Radio Operators). Both entities play a critical role in disaster response.

The Department staff undergoes regular radiological training and provides this training to local first responders who would assist in the event of a radiological accident. It is incumbent on the County to be prepared for such an emergency and maintain up-to-date plans which would direct both County staff and local responders. It is also the Department's responsibility to assure the safety of County residents and visitors and to keep them informed of radiologic dangers and emergencies as they may occur.

Monies provided to the County under Act 147 cannot be applied to salaries or benefits and must be spent for allowable expenses. Unspent funds must be returned to the Commonwealth.

### ***TMI Grant Budget Narrative***

These funds will be used in part to purchase a portable decontamination tent for hazardous materials incidents where first responders might require decon following exposure to potentially harmful substances. The tent can double as a portable incident command structure to give incident command a place to work protected from the weather. Otherwise, the Act 147 funds will be used for supplies and equipment for the County's Emergency Operations Center.

The funds can only be used for equipment, training, and supplies needed for the County to serve in a support role to an accident at Three Mile Island facility, though the equipment can be used for other emergencies. Expenditures must be approved by the Pennsylvania Emergency Management Agency or PEMA. The equipment becomes County property and must be maintained and serviced by the County.

This is a relatively small fund of monies provided to the County but over the years these funds have been utilized to upgrade technology in the County's Emergency Operations Center ("EOC"), to help equip the American Red Cross – Adams County Chapter, and to help enhance the capabilities of our amateur radio operators who support communications needs in the EOC

2017 ADAMS COUNTY BUDGET  
**FINANCE & PURCHASING DEPARTMENT**

***Mission Statement***

The primary mission of the Finance Department is to prepare, monitor, analyze, and forecast the annual County budgets by providing timely and accurate financial reports to the Board of Commissioners and Department Directors/Elected Officials throughout the year. In addition, we are responsible for providing the procurement services for all County departments. The finance Department is held in compliance with Generally Accepted Accounting Principles (GAAP), Governmental Accounting Standards Board (GASB) and best practices from Governmental Finance Officers Association (GFOA).

***Budget Narrative***

A brief recap of **2016**, the Finance department has taken on a fresh new look starting off the year with creating a vision and mission statement (see website). We developed and maintained an overall County budget of \$76.2 million. In addition, we focused on developing a new and improved reporting by presenting quarterly budget updates and comparative analysis to the County Manager and the Commissioner's. Also, we have explored new budget tools in collaborative efforts with The Controller's office for financial transparency. Procurement division has coordinated and provided exemplary procurement services to all departments. During 2016 this division facilitated and coordinated a first time auction for the County to clean out old office equipment etc., deemed no longer useful for the county.

**2017 GOALS:** In addition to making budgetary recommendations and providing analytical strategies, we continue to forecast and project future operations and enhance our customer service to all departments through both procurement and budget management. Finance will continue to provide accurate and timely reporting to the Board of Commissioners.

The primary goals for Finance will be as follows: 1) to build upon and enhance our analytical skill sets through attending a series of training courses through GFOA (Government Finance Officers Association). 2) Improve our reporting capabilities by learning how to utilize a newer report writing program called **COGNOS** that our financial software vendor has developed. 3) Develop more consistency within our daily operations including our annual budget process resulting in improved processes and more automation. 4) Continue to promote Staff development and an environment that fosters communication with other departments and management.

2017 ADAMS COUNTY BUDGET  
**HUMAN RESOURCES**

***Mission Statement***

The County of Adams Human Resources (HR) Department is a liaison and point of contact for, Employees, Retirees and Applicants. Human Resources partners with elected officials and management to ensure the County of Adams is the Employer of Choice for our community. Our goal is to provide a safe, fair, and healthy environment with our employees overall well-being at the forefront of each decision made.

Human Resources Department is responsible for processing payroll for all county employees and elected officials.

The County of Adams is an Equal Opportunity Employer and does not discriminate against qualified applicants on the basis of race, color, creed, religion, ancestry, age, sex, marital status, national origin, disability or handicap, veteran status, or any other status protected by law.

***Budget Narrative***

The Human Resources department of Adams County recognizes that the way we do business now is very different from what was standard practice a few years ago; and ten years from now it will be very different from today. To meet future needs and demands we are committed to continuous learning both throughout the County of Adams and in our own office. Short term and long term goals are in continuous motion; changing with each retirement, new hire, and mandated government procedure, policy, or law. The Human Resources team is a combination of experience and education that serves the County efficiently and professionally.

The Human Resources department is responsible for compliance with the following areas of employment:

- Equal Employment Opportunity
- The Americans with Disabilities Act
- Anti-harassment and Discrimination Laws
- Prevention of workplace violence
- Workplace conduct expectations
- The Fair Labor Standards Act
- Recruiting and new hire orientation
- Leave administration, including the Family Medical Leave Act
- Payroll
- Collective Bargaining

- Training
- Workers Compensation
- Salary Administration
- Risk Management
- Benefits
- Affordable Care Act

Giving back to the community where many of our employees live, and all work, is important to the Human Resources department as well. Throughout the year many local agencies are supported by our employees both financially and by participating in hands on opportunities to serve.

Recognizing that a person's physical and mental health affect his/her ability to perform at work, an aggressive and fun Wellness Program continues to be integral to the benefits offered for the employees of Adams County.

**INFORMATION TECHNOLOGY SERVICES (IT)**

***Mission Statement***

The County of Adams Information Technology Department provides technology solutions and services in a reliable and secure manner. The department strives to deliver quality services that improve and foster relationships with the citizens of the County and other governmental partnerships.

***Vision Statement***

The County of Adams Information Technology Department will implement technologies that promote sharing information and enhancing services that foster collaborative relationships with the County agencies, departments, and citizens. The solutions that are implemented will be utilized for long-term growth ensuring appropriate fiscal responsibility through cost-effective services. The department will also implement best practices to achieve the vision and ensure success.

***Goals***

The County of Adams Information Technology Department has established departmental goals to support the Mission and Vision statements. The department will endeavor to ensure the integrity of data from loss or destruction. Department personnel will provide professional customer service and enhance customer relationships, both internally and externally. The staff will also focus on delivering effective and efficient technology that will enhance the delivery of public services. The department is committed to continually researching and evaluating technologies that will ensure a foundation for future growth and the expansion of services. Another key goal for the department is provide educational opportunities for the staff to maintain knowledge of advancements in technology.

2017 ADAMS COUNTY BUDGET

Information Technology Services (continued)

***Budget Narrative***

The Information Technology Department completed numerous projects during the 2016 calendar year. The projects ranged from department level upgrades to major capital improvements within the County system. The team was able to accomplish these projects through continuous communication and strategic planning with all County departments. Through the continued support from Sr. Management to modernize and secure the County IT infrastructure, the department will continue to transform and revolutionize all aspects of the IT portfolio. With rapid technological advancements challenging innovations to daily operations, the department will strive to stay abreast on modern technologies through continuous research and education. The projects that were completed throughout the 2016 calendar year will serve as a platform for new projects identified for the 2017 calendar year. The major accomplishments from 2016 are identified.

2016 Projects

Virtual Desktop Deployment (250)	Offender Management System Migration
Website Refresh (Responsive Design)	Human Services Building Planning/Migration
ETIME Upgrade	Voice Over IP System Deployment
Public Wi-Fi expansion (Adams County)	Network security upgrades (MS-ISAC)

## 2017 ADAMS COUNTY BUDGET

### LAW LIBRARY

#### *Mission Statement*

The Adams County Law Library, located in the Courthouse, is a legal research facility for the Adams County Court of Common Pleas, Adams County public officials, Adams County attorneys and the general public of Adams County. The Law Library houses up-to-date titles with an emphasis on Pennsylvania law. The Law Library's collection is enhanced by an online subscription to Westlaw. This subscription provides access to court opinions, legislative materials and related sources for the entire United States. Ultimately, it is the goal of the Law Library Committee to continue to provide adequate resources in a variety of formats to meet the research needs of the Library's users.

#### *Budget Narrative*

The cost of maintaining a viable legal research collection keeps rising. In an effort to balance the needs of the collection and the increased cost of maintaining it, the Law Library entered into a cost-saving Library Maintenance Agreement with ThomsonReuters. The Library is under contract for the latest online platform with Westlaw. The 2017 request for \$122,750 reflects the anticipated six percent increase that will be necessary to maintain the collection and its contracts for both print and online subscription services. The Westlaw online legal subscription augments the printed collection by providing access to both Federal and State legislative materials and court opinions. The Committee would also like to explore adding new titles to keep the collection current and reflective of its users' needs.

The focus of our budget request is the library's collection, thus no new equipment or furniture is being requested for 2017. The budget includes the monthly rental of a photocopier to help maintain the integrity of the non-circulating collection.

This budget includes the renewal of professional memberships in the American Association of Law Librarians and its Special Interest Section on Government Law Libraries.

## 2017 ADAMS COUNTY BUDGET PLANNING AND DEVELOPMENT

### *Mission Statement*

The Adams County Office of Planning and Development focuses on a long term commitment to economic vitality, environmental integrity and development design quality through the highest quality comprehensive plans, plan implementation and development review. These planning initiatives focus on advocacy for the community regarding desired development and resource conservation in Adams County.

Planning initiatives focus upon long-range economic visioning, land use, transportation and resource protection policies. The intent of these initiatives is to guide short-term implementation activities and efforts to effectuate the best possible community development and conservation decisions.

### **Objectives:**

The objective of the Adams County Office of Planning and Development (ACOPD) is to support the practice of good planning. With the intent to heighten this practice, we continually strive to provide leadership in assisting community representatives in making informed decisions about economic visioning for the County as it relates to quality of life. Through outreach and education efforts, the ACOPD assists in responding to the defined needs of the County and its local communities and provides information and recommendations to citizens, decision makers and other County Departments jointly so a long term sustainable vision can be achieved.

ACOPD provides professional planning services to local municipalities, community and state partners, and the County. ACOPD is involved in projects and plans that enhance the physical and social character of our communities; achieved through traditional planning along with the incorporation of innovative concepts and solutions, integrated with eye-catching visual representations.

ACOPD offers a variety of tools and resources to assist local municipalities and the County to envision their future through land use, transportation, economic development, and resource protection policies and implementation.

ACOPD is made up of three divisions: Comprehensive Planning, Rural Resources, and Geographic Information Systems - working together to provide the finest and most distinct service to our communities.

The active projects currently being conducted by ACOPD can be found on the following website for review at <http://www.adamscounty.us/Dept/Planning/Pages/Projects.aspx>.

***Budget Narrative***

During 2016, ACOPD through its three (3) divisions provided various planning services and technical assistance to local municipalities including the continued implementation of zoning for the three municipalities that still operate under the county zoning ordinance. We anticipate two of those municipalities to adopt a zoning ordinance, prepared by our department, specific to their community during 2017. We will continue to provide significant effort to manage permitting, enforcement and zoning hearing board review activities for administering the county zoning ordinance while providing additional resources to prepare these multi-municipal zoning ordinances. Additionally, we continue to provide permitting and enforcement services for the Abbottstown and East Berlin Borough Zoning Ordinances. These zoning commitments will result in continued significant levels of staff involvement.

The entire ACOPD staff has been involved in the work on the Central Adams Joint Comprehensive Plan that has incorporated a vigorous public outreach and education program. These efforts along with the numerous steering committee meetings are bringing this planning process to its final stages. The draft text of the plan is being developed for final review and should be adopted in the spring of 2017.

The Rural Resources Division through the continued implantation of the Agricultural Land Preservation Program, under the guidance of the Agricultural Land Preservation Board, has acquired conservation easements on nine (9) farms comprising more than 624 acres during the most recent round of applications. We anticipate the preservation of an additional 1,300 acres during this next round of applications now being processed. All of the easements preserved through this program are monitored annually by the staff of this division.

While subdivision and land developments have seen very little increase over the past year, the Comprehensive Planning Division staff are still engaged in the review and comment process sought by our local municipalities. Staff is also involved with local municipalities in developing and implementing their adopted planning tools relative to the plan review process. This increased involvement assists in improving current planning functions by coordinating municipal planning with the mandated county planning reviews. Additionally, the public outreach program that was implemented coordinates and/or providing training on various relevant planning topics for local municipalities and coordinating agencies. Municipal surveys have been conducted and will continue to be updated to provide training for the most requested topics throughout the year.

## 2017 ADAMS COUNTY BUDGET

Planning & Development (continued)

Environmental activities are a contributing element of the department. Staff is involved in the latest storm water management efforts, specifically the MS4 program and has been providing education and training for the local communities affected by this ruling. Efforts will continue in 2017 to assist with public outreach and education efforts relative to the MS4 program. Groundwater protection and water supply planning are coordinated through our participation with the Water Resources Advisory Council. Solid waste planning and other resource conservation efforts continue to comprise a portion of the workload in the department as well and will continue to do so. The update to the County Municipal Solid Waste Plan is in process and anticipated to be completed in 2017.

Economic development continues to be a top priority. In order for the County to embrace its unique position in the region as a rural community, growth must focus on developments that attract people who want to live in this environment. Based on current and upcoming municipal plans, the objective is to develop an economic structure that is more diverse than competing counties in the region yet unique to the community. This structure should embrace the strong agriculture, tourism, historical and industrial heritage and seek to incorporate growing industries such as health care, bio-research, and education as economic areas to develop. An Economic Impact Analysis of the Fruit Belt Region in Adams County was completed in 2016 and the model developed from this process will assist our office in analyzing other sectors of the economy in determining significance and direct resources for stability. This analysis and other contributing projects are being incorporated into the County Economic Development Plan. This plan is in the final phase of development and will provide actionable items as part of an implementation plan that incorporates the objectives of related agencies and representatives.

Grant administration remains a key component of the ACOPD. A Community Development Block Grant (CDBG) of \$474,196.00 has been awarded to the county for 2016. That amount includes 112,688.00 allocated for Gettysburg Borough and \$86,478.00 allocated for Littlestown Borough. Due to changes in the law, ACOPD will be submitting the 2016 application on behalf of these two boroughs which will entail additional administrative oversight. Due to time delays at DCED we will be submitting the 2016 CDBG application in December of 2016 and do not expect to be awarded until at least mid-year and not under contract until the end of 2017. Note, to date we have not received the 2015 contract so costs associated with that contract cannot be incurred and projects cannot commence. We anticipate the need to continue to train in-house staff for back up and for additional resources as the complexities of this program and the associated projects continues to increase.

2017 ADAMS COUNTY BUDGET

Planning & Development (continued)

Finally, the GIS Division enables ACOPD to provide the visualization necessary to convey the objective of any given project. The GIS staff analyzes and provides valuable data upon request for staff, local officials, developers, coordinating agencies and residents alike. This division is integral to the implementation and success of all of the projects administered by ACOPD. GIS has broad ranging application and as such staff will work with county management to set priorities and assist with projects where applicable.

Technology continues to change and our programs are ever expanding or being enhanced which will require additional staff resources and coordination with the IT department and possibly IT consulting services over time as our systems and projects become more sophisticated. The successful management of ACOPD will require continual coordination with management to provide the guidance necessary to achieve the desired goals of this administration in meeting the needs of our constituents.

2017 ADAMS COUNTY BUDGET  
**PROTECTIVE INSPECTIONS**

***Mission Statement***

The Adams County Department of Protective Inspections strives to protect the public in commercial weighing and measuring practices, to achieve fair competition among businesses, and to facilitate trade between the states. This is accomplished by:

1. Inspecting and testing at facilities which sell by weight, measure and/or count.
2. Assuring that the devices used and the method of sale followed are correct, accurate and legal.
3. Eliminating from use the devices which are incorrect and/or inaccurate and those methods of sale which are not legal.
4. Responding to consumer complaints.

The Department of Protective Inspections also works in the following fields.

1. Enforcement of the Solid Waste Laws
2. Posting and personal service of tax claims, presented by the Tax Claim Department.
3. Defensive Driver Training of County Employees (certified instructor)
4. Assist With operation within the Department of Emergency Services.

***Budget Narrative***

Please find enclosed the projected Protective Inspections Budget for the year 2017. It includes the statement of projected expenses and income for the following programs: Weights and Measures, Solid Waste Code Enforcement and Tax Claim. The anticipated revenue for weights and measures comes from a fee for service calculated to be approximately \$8,500.00 collected during 2016. Additional revenue for personal service of tax claims is provided by the Tax Service Department.

Some elements of the operating expenses are fixed costs from year to year and are anticipated to remain the same. However, adjustments have been made to reflect potential changes to consumer prices such as gasoline, supplies, and conference costs. The testing equipment used for inspections is in excellent condition but annual maintenance of cleaning and repainting will need to continue as well as regular service for the vehicle. There are no capital requests this year. Overall this proposed budget incorporates a 13% reduction in expenses from the 2016 budget.

2017 ADAMS COUNTY BUDGET  
**PRISON (Adult Correctional Complex)**

***Mission Statement***

The mission of the Adams County Adult Correctional Complex (ACACC) is to protect and serve the residents of Adams County and the general public by providing progressive and comprehensive correctional and rehabilitative services. These functions are achieved through well managed and effective correctional programming, including: the use of pre-trial supervision; secure incarceration; community re-entry programs, and highly accountable security methods.

***Vision Statement***

We will strive to empower our workforce at every level to achieve excellence in correctional practices. Collaboration, efficiency, accountability, integrity and leadership are keys to our success.

***Budget Narrative***

The 2016 average daily population (ADP) year to date is 314.93 inmates which is up from the (ADP) of 2015 which was 276.15, mainly due to the increase in out of county holds (Federal Inmates) with the United States Marshal Service and the continual increase of admissions with new charges. To date we are looking at approximately a 10% population increase which will increase expenditures to assure the continual safety and security of the institution if population trends continue to rise.

Due to the increase of United States Marshal Holds (Federal Inmates) in 2016, the ability for the facility to work with additional outside agencies to house inmates temporarily as well as the continual rise in Re-Entry Fees collected from Re-Entry participants holding down employment was a strong contributing factor of in our revenues for the year being increased from 2015. We have been able to surpass the budgeted amounts for out of county revenues, guard and transport fees, work release fees, and several others.

We have however continued to be impacted by the revenue loss from the Federal Communications Commission (FCC) ruling on caps for inmate telephone calls that started to affect a percentage in 2015 however the decision mid-year in 2016 was made that the county would no longer receive any percentage of telephone revenue resulting in this being eliminated completely as a revenue source.

Our main focus moving into 2017 is addressing the continual rise of facility maintenance issues relating to equipment repairs, replacement and the impact we are starting to notice visually as well as monetarily with a facility quickly aging to 15 years old. The last several years, maintenance related portions of the budget have not reflected much of a shift, whether increased or decreased, in the adopted amounts to utilize in replacing and repairing these issues of the facility. This leaves us looking into 2017 with approximately \$150,000.00 worth of repairs and replacements to get the facility back up to running adequately. We as well are taking a serious look at the planning and execution of preventative maintenance changes that need to take place. The magnitude of a correctional complex and all that is entailed in keeping the safety and security of the prison at its peak requires a detailed preventative maintenance schedule to be strictly followed.

Again in 2016, much like year 2015, were high numbers of inmate hospital transports and emergency medical transports which creates significant increase in our overtime as these emergencies cannot be planned. With the intensive Drug and Alcohol Outpatient Treatment within the correctional facility in full force this year we are optimistic to see a decrease over the long term with drug and alcohol related recidivism that we have continued to see in our facility.

As always, the staff of the Adams County Adult Correctional Complex will continue to operate effectively and efficiently within the parameters of the allowable budget as we consistently do annually. We will continue to strive in running a model correctional facility that will have a positive impact on the inmate population to reduce the recidivism of that population. In addition we will continue to operate a humane and professional facility that will positively reflect on the residents of Adams County, the Adams County Prison Board in the most fiscally responsible way possible.

## 2017 ADAMS COUNTY BUDGET CENTRAL PROCESSING

### ***Mission Statement***

The mission of the Adams County Central Processing Unit is to provide local law enforcement with standard protocol in which to process individuals accused of criminal offenses. This shall be attained by coordinating the means and methods of obtaining, processing and disseminating offender identification and criminal history information.

### ***Vision Statement***

The vision of the Adams County Central Processing Unit is to insure that criminal history information is properly safeguarded and to maximize local law enforcement's ability to coordinate their efforts in solving crime. We will also minimize the amount of time required to process offenders thereby allowing law enforcement officers the opportunity to maximize the services provided to their communities.

### ***Budget Narrative***

During the 2016 budget cycle, a large majority of correctional officer continued training to become certified to operate the booking center. The continual tracking of overtime to the correct expense code within either the Central Process Unit budget or the Prison budget significantly reduced the overtime cost within the Central Processing Unit Budget over the last two years. That trend continues to show improvement.

During the 2017 budget year we will continue to explore operational changes of the Central Processing Unit in hopes of extending services already in place for local law enforcement agencies in order to get those officers back on patrol in our communities in a more efficient manner.

## 2017 ADAMS COUNTY BUDGET **PROTHONOTARY**

### ***Mission Statement***

The Prothonotary office was created by the State Constitution to serve as the civil clerk of the Court of Common Pleas. The Prothonotary's duties include recording, maintaining and preserving the civil court records for the Court of Common Pleas of Adams County as well as accepting passport application for the U.S. Department of State. Maintenance of public records is crucial to the protection of the rights of Pennsylvania's citizens. This has long been one of the most important functions of county government.

Our goal is to provide courteous and professional service to all customers including processing documents in a timely fashion.

### ***Budget Narrative***

Our goals for 2017 are as follows: Continue to increase office efficiency through greater use of existing computer technology. For example, by implementing various components within the case management software, we can generate better reports for monitoring active cases for statistical purposes and inactive cases for possible termination. As a small department, cross-training continues to be a priority to ensure the timely processing of documents.

We've continued to evaluate, add or replace, when warranted, computer hardware and software to maximize efficiency through the use of technology at no cost to the taxpayer as Records Improvement Funds are utilized. The office implemented technology to accept debit and credit card payments. The software is linked to the case management software thereby eliminating steps and additional work by employees. The customer agrees to pay the convenience fee associated with this service.

The historical civil records of the County were relocated to a new file storage room pursuant to a recommendation by the Pennsylvania Historic and Museum Commission. These historical books were cleaned, inventoried, wrapped in acid free paper and organized on shelves.

Records Improvement Funds were expended to acquire a new filing cabinet system for active files on the first floor. This modern filing system better utilizes vertical space thereby increasing the amount of storage as well as facilitates the organization of all active files in one convenient location. The old lateral filing cabinets have been recycled to house inactive child support files thereby enabling easy access to those records when necessary.

2017 ADAMS COUNTY BUDGET

Prothonotary (continued)

The office footprint was evaluated and reorganized in moving like items together as well as computer hardware to better accommodate the public and staff members. The public search terminals are conveniently located in the front of the department along with other necessary research items. As a result of these changes, the overall appearance of the office is clean and professional

2017 ADAMS COUNTY BUDGET  
**PUBLIC DEFENDER**

***Mission Statement***

The Adams County Public Defender's Office is responsible for providing legal representation to all juveniles who commit criminal offenses and to financially qualified individuals in adult criminal cases, parole/probation and intermediate punishment revocation matters, protection from abuse contempt cases, cases involving alleged contempt of court for non-payment of fines and costs, and mental health involuntary commitment hearings. Eligibility for representation is based on the income and personal assets of the individual (and in some cases, his or her household) who has applied for services. Our office uses an eligibility threshold of 125% of the federal poverty guidelines. This is a more stringent financial eligibility standard than those used in surrounding counties. Individuals who are incarcerated automatically qualify for public defender services.

It is the objective of this office to provide competent and effective representation on behalf of the accused/client in each case, and to ensure that all individuals, regardless of financial circumstances, are afforded due process and the protections of our state and federal Constitutions.

Duties and responsibilities of our professional staff include interviews with defendants, investigation of cases, preparation for trial, representation during hearings and actual trials and, in the event of conviction, representation in connection with sentencing and any appeals. In addition, our office is also appointed to represent defendants in post-conviction matters who allege constitutional violations.

***Budget Narrative***

The current professional staff of the Adams County Public Defender's Office consists of a Public Defender, a First Assistant Public Defender and two assistant public defenders. This staff is supplemented by the services of two legal secretaries and a Certified Paralegal/Office Manager, who oversees day-to-day operations in conjunction with the Public Defender. We are adequately staffed for our present needs.

## 2017 ADAMS COUNTY BUDGET **REGISTER & RECORDER**

### ***Mission Statement***

The Adams County Register of Wills and Recorder of Deeds consists of two separate offices. The Register and Recorder Office is responsible to preserve estate records and county land records, and to maintain and preserve those records so that anyone can have access to the county's public records for future purpose.

The role of the Register of Wills is to act in a quasi-judicial capacity to accept Wills for probate and grant official Letters to a personal representative to serve as Executor or Administrator of an estate. In addition, necessary estate paperwork is filed with the Register of Wills on behalf of a decedent's estate; this includes the inheritance tax return and inheritance tax payments as agent for the Commonwealth of Pennsylvania. The role of the Recorder of Deeds is to be responsible for the recording and maintaining of county land documents and making those public records available for research. In addition, the Recorder of Deeds has the duty to collect state and local (municipality and school district) transfer taxes for deed transfers and to disburse those funds to the proper entity. For our Veterans, the Recorder's office records military discharge papers (DD-214) and provides certified copies (to the Veteran only), upon request. Notary bonds and commissions are also recorded in the Recorder's office.

### ***Budget Narrative***

Objectives for the Register of Wills and Recorder of Deeds are to focus on keeping a watchful eye on required changes, practices, techniques and technology that could be incorporated to enhance and improve the services that both offices provide to our community. The technology of eRecording is one such example. Once implemented, this technology will allow for the processing of electronically recording documents for those businesses who wish to record electronically; however we will continue to welcome the familiar fashion of over-the-counter recording for those who wish to record documents in the traditional manner.

A continuing goal for both offices is to continue to preserve records and to work towards digitalizing all records to allow users to search data and associated images using a reliable, user-friendly computer system that also provides the office staff with the ability to serve our customers efficiently and with precision.

## 2017 ADAMS COUNTY BUDGET SECURITY

### ***Mission Statement***

Our department is responsible for the safeguarding and security of the Adams County Courthouse and affiliate offices, its assets, employees and members of the public.

We strive to accomplish this role by diligently screening visitors, monitor alarms and security cameras, patrol the interior and exterior of the facility, and provide a uniformed presence to monitor interviews or hearings.

Security Officers are generally the first county employees that members of the public encounter when entering the facility. Officers are expected to project a professional image and treat all visitors with courtesy and respect.

### ***Budget Narrative***

In the last twelve (12) months, 82,281 individuals were processed through the Courthouse security checkpoint and we prevented 2,532 various prohibited objects from entering this facility. Of that number, 134 of those items were handguns belonging to individuals not authorized to carry them into the courthouse. Their firearms were secured in a locked container near the security checkpoint.

The security measures we utilize prevent individuals from secreting a weapon through the checkpoint. Studies indicate that the mere presence of an active security checkpoint will discourage most individuals from implementing an attack on a facility.

Recently, a new Honeywell access control and burglar alarm system was installed in the Courthouse. New employee IDs, proximity card readers, and six (6) new security cameras were installed. A significant feature is the ability for the Sheriff's Office to monitor the burglar alarm system and security cameras. Their staff is now able to view real time threats to this facility and provide a rapid response.

The renovation of the Human Services Building has begun and once completed will include a Honeywell ProWatch system that will be managed by on-site security personnel. Some of the expenses on the 2017 budget are associated with the additional equipment or manpower at the new facility.

In today's world, it's imperative that the Board continues to support a proactive security platform, plan for new technology, and fund additional security measures as the county continues to grow. Effective security provides a peace of mind which allows employees to efficiently carry out their assigned duties while providing a safe and secure environment to conduct county business.

2017 ADAMS COUNTY BUDGET  
**SHERIFF**

***Mission Statement***

The mission of the Adams County Sheriff's Office is to provide first-class professional, dignified and courteous service to the Adams County Courts, the Citizens of Adams County, its agencies, and all law enforcement organizations with whom we partner to maintain order in our community.

We will serve with integrity and distinction, whether providing security for court proceedings, serving warrants and civil process, conducting prisoner transports, providing community services or fulfilling any other law enforcement duties required or requested under law and statute.

***Budget Narrative***

In 2016, members of the Adams County Sheriff's Office (ACSO) continued to perform their duties in accord with the above stated Mission Statement. The funding requests outlined in our FY 2017 Budget Request will go toward the completion of the various tasks and duties of the Sheriff's Office. The accomplishments for FY-2015 include but are not limited to the following:

**Summary of highlights - The ACSO has:**

- **In 2013, the Sheriff's Office successfully completed the process to become a state-accredited law enforcement agency; one of a handful of the 67 Sheriff's Offices in Pennsylvania to do so. To date, other than the PA State Police, we are the only Law Enforcement Agency in Adams County to achieve that distinction.** In 2014, 2015 and 2016, the ACSO continued to maintain those standards as well as meet and document all newly revised standards set forth by the Pennsylvania Law Enforcement Accreditation Commission (PLEAC) program.
- We are proud to announce that **in October of 2016, we were re-accredited by PLEAC** clearly demonstrating to the Adams County community the level of professionalism of the Adams County Sheriff's Office. Our next reaccreditation period will be in 2018.
- We **expanded**, without an increase in staffing, our role of providing **Court Room Protection** for the safety of the **Judges of Adams County and the public for four (4) Court Rooms** as well as County Commissioner's Meetings.

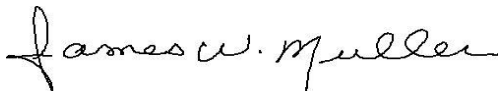

- Transport Orders for out-of-county prisoners throughout the Commonwealth along with regular in-county Prisoner transports. Writs of Transport (**transport orders**) processed for out-of-county prisoner transported have **increased by 57.42% over 2015's numbers (392 projected)**.
- In calendar year **2016, virtually all categories of Prisoner Transports** (in-county, in-Commonwealth) **have increased without a corresponding increase in staffing**. Transports from the ACACC to the Adams County Courthouse have continued to increase each of the last three years. Between 2015 and 2016, the number of **prisoner transports has increased by over 20% (projected to exceed 2,000) while there has been no increase in staffing**.
- The cost of returning prisoners to Adams County has increased in each of the preceding five years as does the time spent by deputies engaged in this activity. To help reduce the costs of this activity, the bulk of the prisoner transports are undertaken by the part-time Deputy Sheriff staff.
- The Sheriff's Office continued to **save Adams County money for long-distance transport by using the Commonwealth Transport Service Division (TSD) of the Department of Corrections** to conduct over prisoner transports from other state correctional institutions (SCI) to the State Correctional Institution at Camp Hill. Fees are assessed to the transported prisoners and are payable to Adams County again **saving the County thousands of dollars in prisoner transportation costs**. This is the fifth year we've successfully utilized this program to deal with increased transports with no increase in staffing and producing savings to the county.
- In 2016, we witnessed an increase in the Criminal and Civil Bench Warrants received from the Adams County Courts, District Magisterial District Judges and other jurisdictions. **While warrant cases received were up 5.5% from 2015, Warrants actually serviced by our deputies is up by over 48 % in that same period in 2016**.
- PFA's average 8 per month for a total of 95 year-to-date (includes Protection from Abuse (PFA) orders, along with the confiscation and storage of weapons ordered by the Court).
- Serviced Executions in Mortgage Foreclosures and conducted Sheriff's Sales. With 215 transactions in FY-2015, the workload continues but has been met mostly due to the acquisition of a recently installed Records Management System, enabling us to handle this workload and increase efficiency with no increase in staffing.

## 2017 ADAMS COUNTY BUDGET

Sheriff (continued)

- Continued to process all court-ordered executions of real and personal property, levies and seized properties, collected judgment debts and auctions of real and personal property at Sheriff's Sales to the public, as well as the preparation and distribution of the proceeds from those sales. Additionally, we serviced Complaints, Writs of Summons, Writs of Possession, and Subpoenas. All in all, the combined civil processes, on average, remained on a par or slightly increased from 2014 to 2016, the Sheriff's Office was barely able to keep up with the workload increase.
- The Sheriff's Office continues processing, investigating, issuing, reissuing and/or rejecting a "**License to Carry a Firearm**" permits (LTC) as well as License to Sell permits (LTS). While the former was less in 2016, as to the latter, with two months remaining in the current year, we are projecting that **we will process over 3,190 such applications by the end of 2016 (or 30% more than 2014. Again, with no additional staffing.**
- Provided the **services of an explosives-certified Bomb Dog** to numerous venues during 2016 assisting other law enforcement agencies or public events within Adams County (e.g., bomb threats at public schools, major events, etc.). **The number of K-9 deployments increased significantly in 2016 as the availability of the service has become better known.**
- Worked with and supported other state and local law enforcement agencies in such efforts as the DUI Checkpoints, Roving DUI patrols, assisting in keeping the peace and maintaining order at public events and backing up state or municipal police when called upon for assistance.
- Due to staffing vacancies on our Warrant Team during this Fiscal Year, we were not able to participate with the US Marshal's Fugitive Task Force in 2016. We intend to renew our participation in the Task Force in 2017 to concentrate on the service of felony and serious misdemeanor warrants within Adams County.
- **For five (5) of the eight (8) major services provided by the Sheriff's Office we have experienced a year-end workload increase of 220.48% with no commensurate increase in staffing.**
- Continued enforcing the Commonwealth of Pennsylvania's Motor Vehicle Code while traveling about the county conducting our daily duties.

- Continued our involvement in a private/public partnership between the Sheriff's Office and the Littlestown Fish and Game Club, the Green Springs Rod & Gun Club, the Blue Ridge Summit Sportsman's Association and the McSherrystown Fish & Game Club, wherein Sheriff's Deputies voluntarily participated in conducting several 2-day, 16 hour training programs for all individuals seeking to acquire a License to Carry a Firearm (CCW) or those who have such a permit but do not have adequate firearms training. Volunteer instructors from both organizations provided this training as a public service to some 250 firearms owners in 2016. Additionally, we held two (2) one-day Advanced Courses for those individuals who previously completed the Basic Course. This program has been enthusiastically received by firearms owners and permit holders alike and has been the subject of a multi-part news piece airing on ABC 27 News.
- Continued its involvement in the numerous volunteer community programs such as the "Easter Bunny Foundation," school-related programs as the "Deputy Phil" School Program, "Fight Crime-Invest in Kids," the "Adams County Tech Prep" Program, local community programs such as the "National Night Out," Wounded Warrior events and other special events upon request. We have joined the 'Wag'n 02 Fur Life Program' providing lifesaving rescue ventilation equipment for household pets as a community resource.

James W. Muller

2017 ADAMS COUNTY BUDGET  
**SOLICITOR**

***Mission Statement***

The Solicitor Office consists of a Solicitor, Assistant Solicitor, and a Legal Assistant. The office is statutorily tasked to commence and prosecute all suits brought by the County where any rights, privileges, claims, or demands of the County are involved. The office also defends actions or suits brought against the County. In addition, the office researches issues and provides advice to the Commissioners and other County offices regarding the appropriateness, legal consequences, and impacts of planned actions. Such research and advice is both reactive and proactive, and includes evaluation of statutes, agreements, regulations, ordinances, resolutions, and policies. The office also drafts ordinances, resolutions, agreements, and correspondence. All contracts are reviewed before approval by the Commissioners, which may require multiple iterations in order to develop mutually acceptable documents. The office is involved in all real estate tax assessment appeals (both for values and exemptions), land use planning, real estate transactions, statutory interpretation, inter-office issues, employment matters, Right to Know Law coordination and review, and support of emergency services. These efforts periodically require work with outside counsel. The office also serves as the Solicitor to the Board of Elections, the Board of Assessment Appeals, and the Agricultural Preservation Board.

***Budget Narrative***

In 2016, the Solicitor's Office represented the Board of Assessment Appeals on over 50 tax assessment appeals filed after the Board of Assessment Appeals decisions were issued in November 2015, as well as eight tax exemption requests. This required numerous filings and court appearances. Right to Know requests continued at a strong pace. These efforts required education of different Department Directors, and review of documents, case law, and Final Determinations. These requests appear to have become a regular part of newspaper reporter research. The Solicitor's Office gave greater attention to support of both Human Resources and the Adams County Adult Correctional Complex, which included union grievances and arbitrations. Special projects supporting the emergency radio replacement project and the law enforcement shooting range slackened, but other efforts saw an increase, including support of the Elections and Voter Registration Office, where two petitions for election district changes were granted.

While the emergency response radio project was not as time consuming in 2016, follow-on projects with that department required considerable attention. The planned sale of County farm land to the Civil War Preservation Trust, efforts supporting the Human Services Building renovation, and winding up of various real estate leases, all required considerable efforts, as did revision of the County's Solid Waste Plan.

## 2017 ADAMS COUNTY BUDGET TAX SERVICES

### *Mission Statement*

The mission of the Adams County Tax Services Department is to provide fair and equitable administration of the county's tax system, as mandated by the Commonwealth of Pennsylvania, by mapping and maintaining current information for all tax parcels and taxable individuals, producing and supporting real property values through systematic procedures; collecting taxes for all of the county's taxing bodies, managing preferential assessment and exclusion programs and the collection of delinquent property taxes while providing the public and other county departments with high quality and friendly customer service. These tasks are done by a well-educated and dedicated staff that includes Certified Pennsylvania Evaluators and others with specialized skills in specific areas; always remaining cognizant that good administration of the Tax Services Department and our tax system is essential for the adequate funding of local government services.

### *Budget Narrative*

During 2016, Tax Services staff continued to provide courteous services while looking to further enhance the efficiency and services that we provide. The Tax Services webpage on the County's website continues to provide the public with tax related information without having to travel to the courthouse. On the site, the public can obtain Tax Services information regarding assessments, the Clean and Green process, appeal process and pay delinquent taxes just to name a few. Downloadable documents can also be obtained. In 2017, we plan on adding new services, such as the ability for taxpayers to purchase a Construction Permit online, further eliminating another need to visit the courthouse.

Continuing to look forward to 2017, forecasts predict that while county residential real estate development may begin to increase, commercial real estate development continues to remain stagnant. Therefore, we will be looking to review certain areas, such as exempt properties and Clean and Green enrollments, to ensure that all properties are properly taxed. We will also continue to track and verify all real estate sales so that annual statistical studies, mandated by county ordinance, can be accurately done.

We will continue to work with the Information Technologies department to identify advances in technology which will help to improve overall efficiency and accuracy in the department in any line of our duties. We will continue to work to enhance our use of technology while conducting field visits, tax claim property posting, tax sales and appeal hearings. Additionally, a new large scale plotter/scanner is requested for purchase that will replace three machines that are currently outdated and/or inoperable at this time.

This purchase would enhance what we can provide from our mapping function to those customers and departments within the main courthouse.

Furthermore, we have begun, and will continue in 2017, to identify and analyze new potential software vendors and services that will bring together all aspects of this department, as well as to streamline time consuming and expensive processes such as tax bill printing and bulk mailing.

Other items scheduled for 2017 are the biennial renewal of our staff's Certified Pennsylvania Evaluators' ("CPE") licenses, including ongoing continuing education opportunities. Due to turnover of staff, it may be necessary to train and certify new employees for CPE licensing. Additionally, Tax Collector elections later in the year will require new bonds to be purchased.

Finally, all staff will be aware and asked to identify areas in which the Tax Services Department can increase efficiency to keep costs down to all taxpayers as we work to administer legally mandated programs.

2017 ADAMS COUNTY BUDGET  
**TREASURER**

***Mission Statement***

The Treasurer's office serves as an agent to the Commonwealth of Pennsylvania for the sale of hunting, fishing, and dog licenses. The office is also charged with the duty of issuing the bingo and small games of chance licenses for Adams County non-profits & fire departments. In addition to all the licenses, the office is responsible for receipting, depositing, investing and distributing the county's funds.

The Treasurer researches and recommends to the commissioners the best investment vehicles in the current market in order to maximize the return on the funds that are available for investment. Those investments' maturities are laddered in order to optimize cash management.

The goal of the Treasurer's office is to provide the maximum level of courteous service to all Adams County residents and non-residents in the most cost effective way possible. And we do!

***Budget Narrative***

Revenue – Interest rates have been relatively stagnant. However, there was a slight increase in 2016 and I'm hopeful the trend will continue into 2017.

Professional Services – The IT department has contracted with Link, Inc. for software maintenance and development for the Hotel Tax program. There are several enhancements that will assist in tracking outstanding taxes and for auditing purposes that need developed. Depending on the outcome of the new ordinance, the commissioners may choose to develop or buy a whole new program.

Conference – Neither Beth nor I have been able to attend the annual association conference the last two years, but we will definitely be attending in 2017.

Temporary Staff – As in many years past the use of the floaters, Nancy Stimer and Patty DeHaas, for the antlerless licensing season is essential.

Minor Equipment – Replacing 2 monitors was unforeseeable this year and fortunately, I did not attend my conference, so I was able to cover the cost with a budget modification. I have two more that are older than the ones that died and I also need a second monitor for my workstation. All of my UPC's need replaced and some workstations don't even have one. The table top scanner is already beyond its life expectancy and has been

2017 ADAMS COUNTY BUDGET

Treasurer (continued)

needing more service than normal. Two years ago I budgeted for workstation “local” scanners, but the ones I budgeted for were no longer available the ones I received in lieu of them were half the price and quality. They did not function well for the needs. I was able to replace one of them in 2016 and am requesting the second one for 2017. I have been using my own personal laptop and tablet for the meetings I attend for the treasurer’s association, but I am also representing and benefitting the county by participating. I believe my office should have a mobile computer in the form of a tablet for those needs.

Overall – This is a bare bones budget. If the commissioners decide to go with new software for the Hotel Tax, I have not budgeted enough, but if we just make modifications, I believe it might be enough. The minor equipment needs have been put on the back burner for to many years, and I’m afraid that I will have a large over expenditure in 2017 if these request are not approved. In addition, I would like to have the department in a healthy condition for the new treasurer to take over in 2018.

2017 ADAMS COUNTY BUDGET  
**VETERANS AFFAIRS**

***Mission Statement***

The Adams County Office of Veterans Affairs provides, at no cost to the Veteran, guidance and submission of applications and assistance on a wide range of federal, state and county benefits for qualified veterans and their families. VA program assistance includes but is not limited to: health care, disability compensation, pensions, education benefits, VA home loan guarantees, homeless veterans, emergency financial needs, burial benefits, obtaining copies of military records, replacement medals as well as a central resource for the distribution of information to Veterans and Veteran service organizations. Potential non-VA benefits are identified, and referrals are made on the veteran's behalf to other agencies. Additionally, representation at community functions is provided to include, but not limited to: attending veterans service organization meetings and outreach to non-Veteran community service organizations.

***Budget Narrative***

This office has continued to conduct veterans outreach programs such as conducting program seminars at places such as, but not limited to, long term care facilities and veteran's service organizations. We continue to share resources and referrals with PA Career link, as well as other agencies and organizations. We have entered into new partnerships with Harrisburg Area Community College (HACC). We continue to utilize the resources of several Adams County churches in order to provide necessities of life, mostly food and temporary shelter to Veterans who are disadvantaged. As a result of various application submissions, this office has been able to bring in substantial state and federal disability compensation and VA pension benefits to county Veterans and their families. This is in addition to other federal, state and local benefits, both monetary and otherwise that have been obtained.

This office continues to develop and maintain a very robust relationship with the GETTYSBURG TIMES that has resulted in the TIMES providing countless Public Service Ads concerning Veterans Benefits and our office. This enables our County Veterans to be made more aware of the services we provide and benefits to which they are entitled. This is being accomplished at NO cost to the County.

We also coordinate and take the leading role in several local Veteran related volunteer annual events at no cost to the County but with great public awareness and involvement (National Wreath Project, Patriotic Tent at the Annual Reenactment, Wounded Warrior Bicycle Ride, Sgt Eric McColley Scholarship of Honor Program and numerous other activities that bring our department to the forefront).

## 2017 ADAMS COUNTY BUDGET

Veterans Affairs (continued)

With the help of local Veterans organizations as well as private citizens and businesses we have been able to establish and direct a local Adams County Veterans Assistance Fund that provides financial relief for Veterans who find themselves in need of temporary assistance.

These initiatives have made the County Veterans Affairs Office more accessible to our Veterans and increase awareness that we do in fact have a Department of Veterans Affairs. The Veterans' affairs office will continue to develop new ideas and strategies, as well as take advantage of any educational opportunities as they become available to advocate for and represent the approximately 9,200 Veterans of Adams County and their families.

In the fiscal year ending this past June, our office brought in more federal Veterans Administration compensation and pension benefit dollars to our County Veterans than in any previous year.

In consideration of the above duties, responsibilities and obligations of the County Veterans Affairs Director, it is of the utmost importance that the budget, salary, benefits and staffing to efficiently operate this department are commensurate with same. In August of 2016 we added a full time Veterans Service Officer to our department which will enable us to not only be able to conduct more outreach services to our Veterans but to also better accommodate them when they visit or call our office. This proposed 2017 budget reflects a "beginning" in setting an appropriate course of direction to support our Adams County Veterans

Thank you.

Respectfully submitted,

Stan Clark

2017 ADAMS COUNTY BUDGET  
**VICTIM WITNESS**

***Mission Statement***

The mission of the Adams County Victim Witness Assistance Program is to meet the many needs of crime victims and their families by providing compassionate services and advocating for the fair and dignified treatment of crime victims as mandated in the Crime Victim's Rights Act. Through these services, the program will assist and enable victims of crime to be restored to their pre-crime status and to continue to be healthy members of the Adams County community.

***Budget Narrative***

The Adams County Victim Witness Assistance Program provides a full range of mandated services to all victims of crime in Adams County.

Four external funding streams distributed by the Pennsylvania Commission on Crime and Delinquency generate significant revenues for the Victim Witness Assistance Program. The RASA (Rights and Services Act) and VOJO (Victims of Juvenile Offenders) funds that we receive are state grants that allow us to provide the rights and mandated services to all victims of crime. Our VOCA (Victims of Crime Act) grant is a federal grant that provides direct services to victims. It is to be noted that these grants are not taxpayer funded; all monies supporting these grants come from fines that defendants pay at the time of sentencing. Grant funding is allocated to each county based on an allocation formula that is comprised of three factors: county population, county crime rate as documented through UCR reports filed by law enforcement; and penalty assessments.

The DUI Victim Impact Panel Grant utilizes the services and expertise of the Victim Witness Program to provide support to victims who present their victim impact statement to Defendants of DUI offenses.

Victim services are very pleased to see the VOCA cap raised and our grant funding increase. This has resulted in an increase of grant funding to Adams County Victim Witness Assistance Program totaling over \$35,000. These grant fund increases are covering the current staff hours that were not covered by grant funding. Therefore, there will be less staff hours paid by the County. Currently the program has 5 full time employees working 37.5 hours a week and 1 part-time working 17.5 hours a week.

The PA victim services conference is held every other year and will be held in May of 2017. All staff are required to receive a mandated 10 hours of training per year. I am requesting 2 staff attend the PA conference and 1 staff attend the National conference. Most of these costs are covered by grant funding.

## 2017 ADAMS COUNTY BUDGET

Victim Witness (continued)

In addition , I am asking for a \$2,000 line item for victim assistance. I receive emergency funding through our VOCA fund for safety and security issues. This additional \$2,000 would provide for financial assistance in circumstances were other means are not available.

In closing, I would like to thank you for your continued support of the Victim Witness Assistance Program and the work that we do to restore victims to their pre-crime status.

2017 ADAMS COUNTY BUDGET

## 2017 ADAMS COUNTY BUDGET 911 TELECOMMUNICATIONS

### *Mission Statement*

The Adams County 9-1-1 Center is responsible for answering all emergency calls in Adams County and for dispatching police, fire, EMS and other emergency agencies.

The 9-1-1 Center is a critical operation serving citizens, visitors and first responders. Every day more than 530 calls come into the center; requests for immediate emergency response to help accident victims, persons with life-threatening health problems, fires, robberies, domestic disputes and other emergencies. On the busiest days when bad weather wreaks havoc on County roads or flooding plagues the County, more than 1000 calls can be placed to the 9-1-1 Center.

The 9-1-1 Center is also the link between the County and State and Federal emergency communications centers, as well as regional resources that might be needed in the event of a disaster or major emergency. The County 9-1-1 Center is staffed with extensively trained, full-time and part-time telecommunicators 24 hours a day.

The backbone of the County's communications system is the new 800 MHz digital, trunked radio system which went live late in 2015 and earlier in 2016. This system is used around the clock by County dispatchers, fire fighters, fire police, emergency medical technicians and paramedics, law enforcement officers and other emergency responders. Communications is arguably the most critical element in emergency response and the lifeline of citizens and first responders alike.

Maintaining up-to-date technology and the day-to-day cost of running the County's 9-1-1 Center is a constant challenge. While partially funded through fees on land line phones, wireless phones and voice over internet phone service, this funding does not cover all expenses and the County must supplement funding through contributions from the general fund.

***Budget Narrative***

The proposed 2017 operating budget for the County's 9-1-1 Center reflects increasing expenses, mostly associated with the ongoing implementation of the new 800 MHz public safety radio system, expenses associated with maintaining the emergency communications system, training the 9-1-1 dispatchers and utility costs and the maintenance contract for operating the system.

With the County moving forward with technological upgrades to the communications system, Emergency Services management is also engaged in discussions with their counterparts from surrounding counties to look for ways to share technologies and processes with the ultimate goal of cost-sharing and collaboration where it makes both financial and operational sense. These efforts may pay off in the long run further reducing the financial burden of maintaining sophisticated communications networks for first responders and vastly improving interoperable capabilities among neighboring counties. In 2017, the Department is looking to implement a Dynamic System Resilience or "DSR" feature shared with Dauphin and Franklin Counties which would give all three counties a shared 'back up' system thus saving each county from having its own backup system.

In 2016, the Department planned to replace the 9-1-1 telephone system, another critical communications element that has long outlived its expected lifespan. The system is no longer serviced by the vendor. This initiative was started in 2016 but will not be completed until the second quarter of 2017.

Along with the system upgrades, ongoing training requirements for 9-1-1 personnel will continue in 2017. In addition to training new dispatchers, continuing education for staff has been submitted in the operating budget for next year.

The Department is also proposing a software system that would allow our 9-1-1 Center to share Computer Aided Dispatching data with our neighboring counties, important when transferring calls from our center to other county centers.

The Department is looking to complete the integration of the new radio system and the Computer Aided Dispatching system so that we can implement an Automatic Vehicle Locator feature in the Motorola system that would help us find and track law enforcement vehicles on county roads. This is a new officer safety feature that we are very interested in utilizing.

2017 ADAMS COUNTY BUDGET

911 Telecommunications (continued)

The new 800 MHz Public Safety Radio system has many new features far beyond the basic capability of voice communications. Moving forward, tapping into the system’s many capabilities makes sense and provides our first responders with the ability to share data and other critical information to improve emergency response and guarantee improved public safety and the safety of our first responders.

2017 ADAMS COUNTY BUDGET  
**CHILDREN & YOUTH SERVICES**

***Mission Statement***

It is the mission of Adams County Children & Youth Services to ensure each child and youth in Adams County has a safe and permanent home.

**Agency Purpose:** We are responsible under Pennsylvania Public Law to receive and investigate reports of child abuse and neglect, provide for the temporary care of children not able to safely remain with their own families and develop community-wide social service programs that promote family stability. The Agency endeavors to be responsive to the changing health and welfare needs of all families by encouraging the development of programs that reduce dependency and strengthen family life. We are guided by many laws, regulations and policies as well as principles and values to help us achieve our mission.

**Anticipated Outcomes:**

- Protecting children and youth from abuse and neglect
- Enhancing the family’s capacity to meet the child/ youth’s well-being, including physical, emotional, behavioral and educational needs
- Strengthening families to successfully sustain positive changes that lead to safe, nurturing and healthy environments
- Securing a permanent living arrangement in a timely manner that supports stability, if children and youth cannot reside with their biological caregivers
- Ensuring skilled and responsive child welfare professionals, who perform with a shared sense of accountability for best practice and positive outcomes

***Budget Narrative***

Adams County Children & Youth participates in both the County and State budgetary process. The County’s fiscal cycle runs from January 1<sup>st</sup> through December 31<sup>st</sup> while the State of Pennsylvania operates on a July 1<sup>st</sup> through June 30th fiscal year. Funding formulas are complex, ranging from a 0% to 95% contribution rate from the federal and state budgets which is then “matched” to dollars from the County.

The Agency makes every attempt to balance fiscal considerations with assuring the safety, permanence and well-being of children, youth and families who reside in Adams County. Recognizing funding is limited, the Agency is compelled to assure programs and services meet the desired outcomes. However, no program and/or service will be successful without the engagement of the family and community.

Services provided by Adams County Children & Youth (ACCYS) fall within four major service categories: Information & Referral Services, In-home, Community Based Placement, and Institutional Based Placement.

## Children & Youth Services

### Information & Referral Services

Adams County Children & Youth provides information and referral services to county residents each year. This may include phone number and address information for appropriate community-based or public services, or direct brief casework assistance by a Children & Youth staff member.

### **Child Abuse & Neglect Educational Services**

Adams County Children & Youth Staff provide educational meetings to mandated reporters of child abuse and neglect, as well as, attend community forums to increase child abuse and neglect awareness and foster parent recruitment.

**In-Home Services**

**Child Protective Services**

Adams County Children & Youth accepts all incoming reports of suspected child abuse and neglect; ensuring the safety of children residing in the reported household, investigates the validity of reports, and provides services to families dealing with child abuse and neglect issues.

Intake investigations have been on the rise as the above trend indicates. The agency is predicting continued increases, particularly due to the change in the Child Protective Service Law (CPSL) definitions that are thought to result from the Child Protection Task Force. Any change in the definition of abuse, perpetrator and mandated reporter may significantly impact the number of referrals, assessments and investigations.

## **Family Support Services**

Adams County Children & Youth staff provides direct casework services to children and families dealing with issues of child abuse and neglect, along with the purchase, coordination, implementation, and evaluation of services for families in need of support.

With the changes in the CPSL related to definitions for abuse, perpetrator, and mandated reporter, the agency has seen an increase in the need for ongoing services.

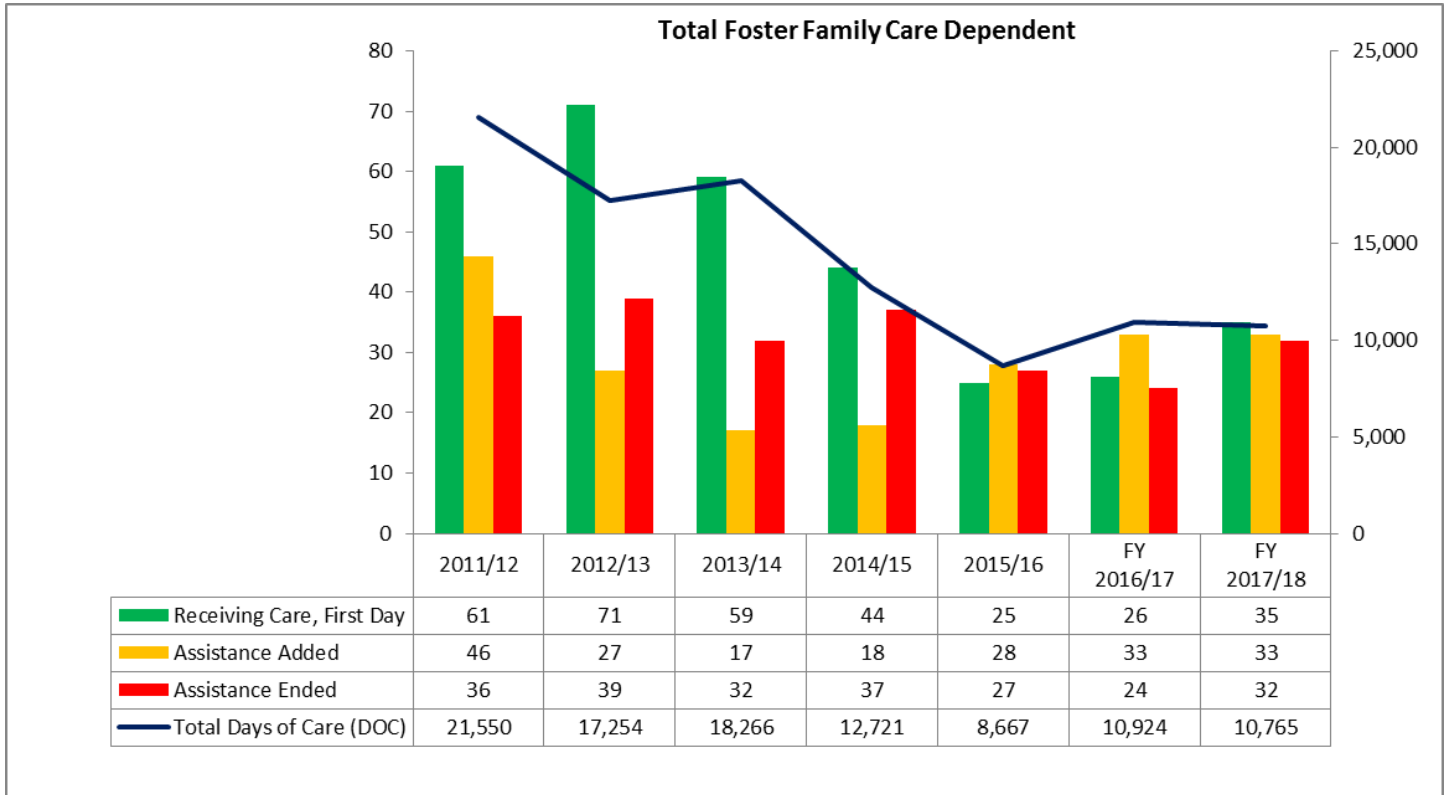

## **Permanency Services**

In the majority of cases, children remain at home or experience brief out-of-home placement services with the goal of family reunification. In the event the child may not be able to return home, Adams County Children & Youth staff is working toward achieving permanency from the first day of placement.

Once it is determined that it is unsafe to return a child to his or her family of origin, adoption may be considered. After parental rights have been terminated, a child can legally be adopted. Adoption is the official transfer of all parental rights and responsibilities that a biological parent has to the adoptive parent or parents. These rights and responsibilities include the care and supervision, nurturing and training, physical and emotional health and financial support of the child. Often, adoption of dependent children includes a financial subsidy to assist in their ongoing care.

Adoption assistance provides permanency for special needs children in foster care by providing ongoing financial and medical assistance to families who adopt them. This subsidy should combine with the parents' resources to cover the ordinary and special needs of the child.

**Community Based Placements**

**Foster Care Services**

Most children are served at home and families remain intact. When safety prohibits children from remaining at home, out-of-home placement may be necessary. Children & Youth staff recruit, train, and inspect foster homes to ensure the safety of the children residing there.

Foster care is full-time, temporary care provided by persons other than a child's own parents. Foster care is intended to offer children a supportive, caring environment when their own parents cannot safely care for them. Children in foster care are generally placed in the custody of the Children and Youth agency by the courts.

In Kinship Foster care, the child lives in a nurturing home environment with persons to whom a close relationship already exists. Kinship providers are required to become licensed foster parents, however, a child may be placed with a kinship caregiver pending completion of these requirements. Kinship care is often preferable to foster care, because in addition to providing safety, it minimizes loss by maintaining family connections and respecting cultural needs.

## 2017 ADAMS COUNTY BUDGET

Children & Youth Services (continued)

The agency in recent months has expanded its use of Family Finding and engagement to emphasize the need to find kinship that can provide support, whether emotional and/or physical, to a child who has entered out-of-home care. We also recognize the need to increase our engagement of dads and their families in an effort to connect the child to all their family, thus potentially improving their identity formation, emotional well-being and sense of belonging.

Group Homes are an alternative to traditional in-home foster care. In a group home children reside in an intimate, home-like setting where a number of unrelated children stay for varying periods of time. The caregivers may be a single set of house parents or a rotating staff of trained professionals. Specialized therapeutic or treatment group homes have specially-trained staff to assist children with emotional and behavioral difficulties. The make-up and staffing of the group home can be adapted to meet the unique needs of its residents.

We continue to be very proud of our reduction in the use of community residential and institutional care for the children in out-of-home placements. We make every attempt to assure the children / youth are in the least restrictive setting.

**Institutional Based Placement**

Residential Treatment Facility (RTF) or hospitalization is a placement resource for children in need of structured and therapeutic intervention. Children placed in an RTF/hospital setting may be experiencing social, behavioral, educational and/or emotional problems and are unable to function successfully in either a family or the community. Placement is focused on treatment with the hope that child can transition to family or community care as soon as possible.

As stated previously, we are very proud of our minimal utilization of residential services. In cases, where this type of placement has been necessitated, it typically is the result of untreated mental health needs that surpass the skills of traditional foster and/or kinship families. We do not anticipate being able to reduce the number in the future as there will always be a need for a more restrictive environment when the child / youth is at risk of injuring themselves or others and requires a higher level of care.

# 2017 ADAMS COUNTY BUDGET

Children & Youth Services (continued)

Aging out is the process of a youth transitioning from the formal control of the foster care system towards independent living. It is used to describe anytime a foster youth leaves the varying factors of foster care, including home, school and financial systems.

The [Child Welfare League of America](#) reports that as many as 36% of foster youth who have aged out of the system become homeless, 56% become unemployed, and 27% of male former foster youth become jailed. The [San Francisco Chronicle](#) reports that less than half of emancipated youth who have aged out [graduate](#) from [high school](#), compared to 85% of all 18- to-24-year-olds; fewer than 1 in 8 graduate from a four-year [college](#); two-thirds had not maintained employment for a year; fewer than 1 in 5 was completely self-supporting; more than a quarter of the males spent time in jail; and 4 of 10 had become parents as a result of an unplanned pregnancy.

ACCYS strives to ensure our youth who are at risk of aging out have permanent connections. “Family Connections” services are utilized within the agency and can assist the youth in making contact with previous supports. The youth are encouraged to invite anyone they view as a life connection to their Family Group Decision Making (FGDM) youth transition conference, as well as, their transition-planning meeting. The Agency began providing mentoring services for the older youth in the fall of 2013.

## 2017 ADAMS COUNTY BUDGET

Children & Youth Services (continued)

Many of our youth, who leave care on or after age 18, return to live with their family of origin. The youth plan for this housing to be permanent and often their family agrees to provide them with housing. Unfortunately, the majority of these housing arrangements are not permanent and within days or weeks, this arrangement deteriorates and the youth is left searching for other options. This also affects the youth's ability to attend school and maintain employment.

**In Summary**, the agency will continue its Intake Investigations to meet our mission: to ensure each child and youth in Adams County has a safe and permanent home. We will also provide direct and contracted services to assist those children and families who are engaged with our system. Believing that families are the best place for children and youth to grow up, we will make every effort to enhance the family's capacity to meet the child / youth's well-being to include physical, emotional, behavioral and educational needs.

If out-of-home placement for the children is necessitated due to safety concerns, the agency will pursue the least restrictive environment which can provide a family-like atmosphere. We will emphasize the need to engage families in identifying kinship resources so the child / youth can be with those whom they are familiar. Our utilization of more restrictive facilities will be reserved for those children and youth who require in-patient treatment or supports to ensure their own safety.

Knowing that quality practice is assured by consistently monitoring and improving performance, we will continue to self-examine our interventions and seek the guidance and expertise of those who are committed to best practice approaches that honor the well-being of the child and family.

2017 ADAMS COUNTY BUDGET  
**INDEPENDENT LIVING**

***Mission Statement***

The mission of the Adams County Independent Living Program is to assist youth with their transition from out of home placement or living with a parent/guardian to begin living independently. Through support, education and stipends, the program strives to increase the number of youth who have effective life skills, educational opportunities, safe and affordable housing and permanent connections in order to become self-sufficient, contributing members of our community.

***Budget Narrative***

The budget of the Adams County Independent Living (IL) Program encompasses the costs incurred to operate the program. These costs include supplies, resource materials, food, mileage and meal reimbursement, conferences/training, memberships, stipends and incentives for youth, rent and related costs to offer the Transitional Housing Program (THP)/HAVEN Shelter and the salaries and benefits of the IL Program Specialist, 2 Transition Caseworkers (1-CW2 & 1-CW3), a Social Services Aide 2 and a Mentoring Program Specialist 1.

## 2017 ADAMS COUNTY BUDGET HAZARDOUS MATERIALS

### ***Mission Statement***

The Adams County Hazardous Materials Program involves planning, training and response to any incident within Adams County that involve hazardous materials or weapons of mass destruction.

The County's Hazardous Materials ("HAZMAT") program is fully compliant with Commonwealth Law as defined in Act 165 of Title 35. Among the responsibilities outlined in Act 165 is the requirement that all businesses or institutions which utilize hazardous materials must file an emergency plan for dealing with possible hazardous materials spills or leaks which might threaten public safety or public health. It is the job of the County's HAZMAT Coordinator to guarantee that these facilities file an updated plan each year and further requires that the use of potentially hazardous materials be reported to the County and, in turn, to the State. This is one of the planning responsibilities of the HAZMAT Coordinator.

In Adams County this person is also responsible for writing, maintaining and distributing the County's Emergency Operations Plan ("EOP"), the Radiological Emergency Response Plan, municipal emergency planning, special events planning and special needs facility planning.

This position and program exists to provide support to all first responders across the County in the event of a hazardous materials incident.

Like all Emergency Services functions at the County level, this program is focused on public safety and compliance with the laws of the Commonwealth of Pennsylvania.

### ***Budget Narrative***

For Fiscal year 2017, continued emphasis will be placed on planning and training and equipping the program for events involving exposure by first responders to hazardous materials.

The HAZMAT Coordinator/Planner works very closely with all County fire departments to coordinate a spill response program and specialized training, and the County relies on the fire departments to voluntarily assist whenever possible.

In 2017, the HAZMAT program will continue to focus primarily on support of all local fire departments and law enforcement agencies, ongoing training and maintaining necessary supplies to meet the responsibilities defined by Commonwealth law.

## 2017 ADAMS COUNTY BUDGET

Hazardous Materials (continued)

In order to deal with exposure to dangerous contaminants, the Department is looking to purchase a decontamination tent; a portable structure capable of easily being transported to the scene of an incident for deacon of first responders who might be exposed to potentially harmful substances. The tent can also function as a portable command center set up at the scene of an incident to allow incident command a place to work and manage an incident protected from the weather; easily identified as the command center. This tent would be funded partially by grant monies from two sources-State Hazardous Materials Response Fund and the Radiologic Emergency Response Fund.

The HAZMAT Coordinator/Planner will continue working with local manufacturers and businesses to update or complete their emergency action plans completing and filing these plans in a timely manner provides the County with an important revenue source that helps the County to fund the hazardous materials response program.

The HAZMAT budget is funded to nearly 80 percent by fees and grants. The County must provide some matching funding for grants.
